COMPANIES MUST GIVE GUARANTEE

That Railroads Will be Completed if Convicts Are Furnished.

A NEW POLICY ANNOUNCED

Gov. Craig and Council of State Throw Safeguard Around Giving Convict Labor to New Railroads.

(Special Star Telegram.)

Raleigh, N. C., July 8.—In the future railroad companies that secure convict labor from the State in exchange for stock in the railroad, must give bond for the completion of the road and the convict labor must represent only one-fourth of the construction work actually in progress.

This is the effect of a resolution adopted by Governor Craig and the Council of State in conference today with prison directors. The only road that has yet met the conditions is the Watauga & Yadkin, which is to have 100 additional convicts. It is working 31 now. Other roads now using convicts are investigating the possibility of meeting the conditions, these beng the Elkin & Alleghany, Statesville Air Line and the Transcontinental.

The State's prison directors made public tonight their report and that of Superintendent Mann, opposing any further State aid through convict labor in railroad construction, and insisting that Article V, Section Four of the State Constitution directly forbids it unless approved by vote of the people. However, the Council of State is insisting on retaining the system as to present contracts, where promoters are meeting the terms required by legislative acts for such aid.

The prison directors report that the prison is now absolutely without funds except the railroad stock that is pronounced worthless, and that the running expenses of the prison amount to upwards of $15,000 per month, and no revenue except this railroad stock for labor in sight until far into the Fall. The State, they say, probably will have to put up $93,000 or more, for prison maintenance by January 1st.

On the other hand, there are numbers of applications for convict labor at $1.50 cash per day that would quickly create a surplus for the prison, as the railroad stock contracts are terminated.

A lengthy report by Superintendent Mann gives in detail the conditions at all these railroad camps. It pronounces the Atlantic & Transcontinental operations a "sham and pretense," at the same time crediting its promoters with honest intentions.

EXPERTS TO INSPECT.

Meat Packing Establishment Throughout the County.

Washington, July 8.—Meat packing establishments throughout the country are to be subjected to searching inspections by well known experts selected by the Secretary of Agriculture from outside of the government service.

This step follows criticism of Federal meat inspection from various sources, and Secretary Houston announced today that its object was to increase the efficiency of the service, and to foster public confidence.

The secretary made public the names of three college professors who have been chosen to visit and report to him personally upon conditions existing in packing plants in New York, Massachusetts, Connecticut, Illinois and Missouri.

Dr. W. T. Sedgwick, professor of bacteriology and sanitary engineering in the Massachusetts Institute of Technology, is to investigate plants at Boston, Worcester and Brightwood, Mass., and New Haven, Conn. Dr. V. A. Moore, professor of pathology at Cornell University, will go to Philadelphia, New York, Buffalo and Pittsburg, and Rr. J. A. Connaway, of the Missouri Agricultural College to Kansas City, St. Louis and St. Joseph, Mo., and National Stock Yards, Illinois.

"It is my desire," said the secretary in his instructions to the experts, "that you report to me fully and frankly the conditions as you find them at the various packing establishments, together with such recommendations looking to the improvement of the service as in your judgment may seem best."

THE ELEMENTS RESPONSIBLE.

For Death of Young Naval Aviator on June 20th.

Washington, July 8.—Only the ungoverned elements can be held responsible for the death of Ensign William D. Billingsley, the young naval aviator who plunged 1,600 feet to his death in Chesapeake Bay near Annapolis June 20th. This was the report to the Navy Department today from the special board appointed to investigate the tragedy. The board found that there had been no fault or negligence on the part of Billingsley or anybody else connected with the service.

The evidence showed that the aeroplane in which Billingsley was carrying Lieut. John H. Towers, as a passenger was unbalanced by a puff of wind from behind. The aviator was thrown into the control levers, making the machine unmanageable, and then tumbled into space.

Lieut. Towers, who clung to the disabled air craft during its wild flight to the water, is now recovering at the naval academy hospital.

THE PITTSBURG BANK FAILURE

McAdoo Will Ask McReynolds to Investigate Alleged Irregularities in Conduct of Defunct Institution.

Washington, July 8.—Secretary McAdoo will ask Attorney General McReynolds within a few days to investigate alleged irregularities in the conduct of the First-Second National Bank, of Pittsburg, which closed its doors yesterday.

The secretary today definitely decided to refer the situation to the Department of Justice, and is now engaged in the collection of all the facts connected with the management of the big bank to prepare the attorney general for an inquiry. John Skelton Williams, assistant secretary of the treasury, today returned from Pittsburg where he superintendent the closing of the bank, and reported that the institution had been "freely mismanaged" necessitating a reference of the conditions to the Department of Justice.

Conditions Sound.

Thomas P. Kane, acting comptroller of the currency, by long distance telephone late today advised Secretary McAdoo that the receivership was progressing satisfactorily, and reiterated that the general banking conditions in Pittsburg were sound. Treasury officials continued not only confident that there would be no more trouble, but emphasized the belief that the closing of the First-Second actually had improved conditions in Pittsburg by removing a doubtful element from the financial system.

Losses Reach $5,500,000.

The latest reports to the Treasury Department indicate that the losses of the First-Second Bank may reach $5,500,000 because the entire capital and surplus of the bank now seem to have been wiped out. These advices were accompanied by assurances from officers of the bank that the depositors, whose claims total about $38,000,000, probably would be paid in full or nearly in full through realization on the bank's assets.

Normal Conditions Restored.

Pittsburg, July 8.—To the decisive statement of Secretary of the Treasury McAdoo, issued last night is attributed the restoration of almost normal conditions in financial Pittsburg tonight, despite the closing yesterday of the doors of the First-Second National Bank, an institution which had been accredited one of the strongest in the country.

While the situation was tense in the financial world yesterday and little information as to possible developments was obtainable, the flat statement of facts of the secretary served to develop an overnight optimism that grew as today advanced.

The closing of the First-Second was naturally followed by suspension of its affiliated banks. The First National of McKeesport, and the appointment of receivers for the banking house of J. S. and W. S. Kuhn, Inc., whose principals were the majority stockholders of both institutions, and a like action with the American Waterworks & Guarantee Company, an enterprise fathered by the Kuhn interests.

Another Kuhn interest which was affected, the Pittsburg Bank for Savings, suffered somewhat from the complication, a run being started on it yesterday, chiefly by small depositors. This continued, somewhat increased early today, but it appeared to abate as the day wore on. Crowds assembled about the bank building and the sidewalk about the building was roped off with mounted police prancing their horses within the lines on the sidewalk. The people were forced outside the ropes into the middle of the street. The crowds were made up mostly of curious spectators. The small groups of depositors that entered the bank were promptly paid $50 upon demand, as yesterday and required to give the legal notice of 30, 60, or 90 days notice to withdraw other amounts above stated figures.

About noon the announcement was made that a J. S. Kuhn, the president and W. S. Kuhn, the vice president, had resigned, and that W. J. Jones, the former secretary and treasurer of the bank, had been made president with A. N. Voegly, former assistant to Mr. Jones, as secretary and treasurer, while L. M. Plummer, a director, was made vice president. From the time of this announcement during the rest of the banking hours, the run perceptibly abated and the crowd disappeared, until at closing time the streets near the bank differed from no other business thoroughfares.

Expected statements as to the American Waterworks & Guarantee Company were not forthcoming today, the delay being attributed to the delay in the appointment of the fourth receiver, which Federal Judge Orr announced should be a man having no business interests with the Kuhns. Several business men have refused the appointment.

No developments were announced from the First-Second National Bank today and none was expected until the receiver C. C. Murray, has had an opportunity to assemle the assets of the bank and has been enabled to ascertain its liabilities.

Chief interest now centers in the steps that may be taken by the government in an investigation into criminal liability in connection with the bank failure. United States District Attorney John H. Jordan, through whom the first steps in this direction would be taken said today he had received no notice from Washington along this line.

PREVATT'S TRIAL BEGUN

Arraigned for Killing Emory McNeill at Lumberton—Fifteen Lawyers

(Special Star Telegram.)

Lumberton, N. C., July 8.—The trial of Barfield Prevatt, charged with killing Emory McNeill here several months ago, was begun in Superior Court this morning.

The selection of the jury was completed about 4 o'clock and when court adjourned at 6 o'clock five witnesses had been examined. A large crowd is in attendance. Eight lawyers appear for the prosecution while seven defend.

Solicitor Sinclair thinks the case will take up most of the week.

SENATOR SIMMONS TURNS THE TRICK

Library of Congress

Gets Possession of Tariff Bill Analysis Prepared By Republicans.

LAUGH IS ON SENATOR SMOOT

General Debate Scheduled for Next Week—Democrats Now Have Time to Make Corrections in the Bill

Washington, July 8.—Senator Simmons, chairman of the Finance committee, turned a trick on Republican leaders today when he got his hands on a lengthy analysis of the Democratic tariff bill which had been prepared under direction of Senator Smoot, pointing out what the Republicans claim are serious defects in the measure.

Senator Smoot had delayed for a month the introduction of the analysis, despite insistence of Senator Simmons that it be printed. On the last day of the caucus, when the Republicans were assured the Democrats were through with the bill, Senator Smoot consented to send the document in for the printer. But the Democrats have not yet printed their bill, and have a day or two to make corrections and laugh at their opponents, inasmuch as debate will not begin until next week.

Knowing that the Republican document might contain valuable pointers, Senator Simmons directed the Finance sub-committees to go over their schedules today while he went over the Smoot analysis to check up with the sub-committee tomorrow.

Senator Simmons heard some weeks ago that Republican leaders had cautioned Senator Smoot to hold back the analysis.

"Don't send it in yet," they urged. "It will give us away." Then the Finance committee determined to lay in wait for the document and today he pounced on it before it went to the printing office. He found the result of Senator Smoot's careful labors of a month, aided by a corps of experts and assistants. He said some of the analysis point out errors that could be corrected, but that much of the document was found to be argument.

The bill probably will not go to the printers until tomorrow night as the sub-committees still are checking up for corrections. Meanwhile, Senator Simmons is completing the committee report on the measure.

Senator Simmons today received from the commissioner of internal revenue an estimate of the revenue to be derived from the income tax as revised by the Democratic Senate caucus. The House estimate on the basis of a flat exemption of $4.000 was $70,000,000a year. On the basis of a $3,000 exemption for single persons, $4,000 for taxable married persons, with an additional $500 each for dependent children up to two as the caucus amended the secticdn, the estimate for the normal year shows very little difference, it being $69,625,000. For this year, however, two months will be lost owing to the change in time the incomes are to be computed from January 1st, 1913, to March 1st, 1913. For this year this would leave the estimated revenue from income tax at approximately $58,000,000.

More revenue, however, will be derived from the corporation excise feature of the tax than the House estimate of $30,000,000.

The commissioner's report shows that in the last fiscal year $35,000,000 was collected from the corporation tax, and estimated for the coming year the revenue is $37,000,000. The general revenue estimate to be derived from income and corporation tax under the House bill was $100,000,000 and under the bill as revised by the Senate this income is estimated at $106,625,000. For the first year, however, owing to the two months cut out from income tax revenue, the general revenue would be approximately $95,000,000. Senator Simmons is having worked out a general revenue estimate for the whole tariff bill. This will show a considerable increase over the House figures.

NEAR ACCIDENT.

Bomb Shell Shrieks Over Mayflower. The President Aboard.

Washington, July 8.—While both the officers of the President's yacht Mayflower, and officials of the Navy Department are reticent concerning the "near accident" to the vessel last week, when a shell from the proving grounds at Indian Head, Md., was said to have narrowly missed the ship, which had President Wilson on board, it is believed an investigation of the affair will be ordered.

It is declared today the shell itself passed over the Mayflower at a safe height, but that the danger was caused by the dislodgment from the shell of the rotating band which fell close to the vessel. So loud was the screech of the shot that the Mayflower's crew are said to have rushed on deck to ascertain the trouble.

At the time President Wilson was said to have been sitting on the after deck with Dr. Cary L. Grayson, his physician. So far as is known, the President made no comment or complaint on his return to the White House.

Numerous protests have been made in the past against the firing of the big guns at Indian Head. River captains declare the lives of their passengers and crews are endangered by the trials, and although no accidents have yet occurred, contend that there have been many narrow escapes from disaster.

WAGE WAR ON BOLL WEEVIL

South Carolina Senator Urges That Federal Government Raise Barrier Against the Enemy of Cotton.

Washington, July 8.—Plans for the Federal government to raise a barrier against the boll weevil of the southwestern Cotton States invading the Atlantic coast States are being drafted by Senator Smith, of South Carolina. Secretary Houston, of the Department of Agriculture is said to have given the proposition his tentative approval.

Senator Smith's plan is for the Federal government, with State co-operation, to prohibit the growing of cotton in a belt which would separate the Atlantic Coast States from the Southwestern States. As the boll weevil migrates only from cotton field to cotton field, the Senator believes this belt would save the States to the east of it from the pest, which has cost cotton raisers to the southwest millions of dollars annually.

According to investigation where a barrier might be raised would be in Alabama, between the mountains near the Tennessee line and the Gulf. This would be a distance of about 150 miles. The boll weevil already has swept over Texas, Oklahoma, Louisiana, Arkansas and is said to be traveling eastward into Alabama. Senator Smith is preparing to urge upon the Senate that this narrow belt will be a practical barrier if immediate action is taken to establish it. If effective, it would protect most of Alabama and all of Georgia, Florida, South Carolina and North Carolina from the weevil.

The barrier to be effective, must be 40 miles wide, it is believed. The growng of cotton n that zone would be prohibited, but the farmers could raise any other crops.

Senator Smith's plan is to have the Federal government compensate the farmers in this zone for not planting cotton. He is investigating the action of the Federal government in stamping out yellow fever in Louisiana and in establishing forest reserves for the conservation of resources in order to have precedents for his plan.

Senator Smith today consulted Senator Kern, of Indiana, the Democratic leader, and won his approval to a feasible plan to accomplish the desired object.

BANKERS IN SESSION.

Financiers of the State Hold Initial Session at Asheville.

Asheville, N. C., July 8.—With bankers in attendance from all sections of North Carolina, and many financiers representing organizations of other States here, the 17th annual convention of the North Carolina Bankers' Association held its opening meeting tonight. The initial session was featured by addresses of welcome delivered by Judge P. C. Cocke on behalf of the city of Asheville, and L. L. Jenkins, representing the local bankers; the response, which was delivered by Joseph B. Ramsey, of Rocky Mount; the annual address of the president, and the report of the secretary and treasurer.

President Leake S. Covington, of Rockingham, urged a more stringent State banking law, and urged co-operation between the State's bankers and the farmers of North Carolina, declaring that the success of the bankers depends largely upon the measure of success attained by those engaged in agricultural pursuits.

The report of the secretary and treasurer showed that the association is in good condition financially, while the membership has increased during the past year.

HARDWARE ASSOCIATION.

Carolina Dealers Assemble for Annual Convention at Richmond.

Richmond, Va., July 8.—With 400 members in attendance, the annual convention of the hardware association of the Carolinas was opened here today, although the business sessions will not begin until Thursday. President M. Bonnoitt, of Darlington, S. C., presided. Addresses of welcome were delivered by Governor Mann, Mayor Ainslie and others. Tomorrow the delegates will go to Jomestown Island as the guests of the city of Richmond.

PISTOL DUEL.

Father Dies From Wounds Inflicted by Son.

Central, S. C., July 8.—John Dobson, a farmer aged 50, residing near here, died today from wounds received last night in a pistol duel with his 17-year-old son. It is said that the boy attempted to aid his mother, whom Dobson is alleged to have been mistreating. Dobson returning the fire, mortally wounded another son, who had taken no part in the difficulty. After the shooting the elder boy escaped and surrendered to the sheriff today.

OUTLINES

David Lamar continued his testimony before the Senate lobby investigating committee yesterday.

Senator Smith, of South Carolina, is urging that the Federal government raise a barrier against the boll weevil in the cotton States.

Lieut. Call, of the United States aviation corps, was killed yesterday north of Texas City by the collapse and fall of his biplane.

The Balkan war has been regularized by formal declarations, and it is announced that the powers will make no attempt to mediate.

Meat packing establishments throughout the country are to be subjected to searching inspections by experts appointed by the Secretary of Agriculture.

Secretary McAdoo will ask Attorney General McReynolds to investigate alleged irregularities in the conduct of the First-Second National Bank of Pittsburg, which recently closed its doors.

Money on call, steady, 2 to 2 1-2 per cent, last loan 2 1-2, closing bid 2, offered at 2 1-2. Flour quiet. Wheat easy. Corn firm. Turpentine steady. Rosin firm. Spot cotton quiet; middling uplands 12.25; middling gulf 12.50. Sales 100 bales.

FORMALLY DECLARE WAR IN BALKANS

Powers Give Up Attempts to Mediate Hostilities, and War is Assured.

BULGARIANS INVADE SERVIA

Official Gazette at Belgrade Publishes Notice of Declarations—Greeks Dispatches Claim Victory at Dairan.

London, July 8.—The Balkan war, having now been regularized by formal declarations, it is understood that the powers will make no attempt to mediate. The official gazette at Belgrade published tonight notice of a formal declaration of war against Bulgaria.

Military news was lacking today. Servian dispatches admit a strong Bulgarian column has invaded Servia at Konagevats, which town they occupied after setting fire to the adjacent villages. Cholera has been brougnt to Belgrade by the wounded.

Greeks Claim Victory.

Official Greek dispatches claim a great victory at Doiran, where the Bulgarians, recently reinforced, were in superior strength to the Greeks. The latter assert that a whole division of Bulgarians was destroyed, and that the Bulgarians fled in such confusion that they even left behind loaded guns. The victory is considered of great importance because Doiran was the Bulgarian victualling center, and all the provisions fell into the hands of the Greeks.

It is reported from Sofia that the 10th Bulgarian division, which reinforced Gen. Ivanoff, was brought from the Tchatalja district. This would indicate compliance with Turkey's demand that the Bulgarians evacuate Turkish territory.

The Bulgarians are taking the offensive against Nish, according to announcement from Sofia.

LIEUTENANT CALL KILLED.

By Collapse and Fall of Biplane Near Texas City.

Houston, Texas, July 8.—Lieut. Loren H. Call, of the United States Aviation Corps, was killed early today by the collapse and fall of his biplane north of Texas City. He had started his flight from the aviation field in the second army division mobilization camp.

The accident occurred several miles from the troop camp. The machine was completely wrecked and the officer was dead when picked up.

Lieut. Call was regarded as one of the best army aviators. Yesterday he made a 25-mile flight in 25 minutes.

The dangerous thing known to aviators as a "warm air current" is held responsible for Call's death. The young lieutenant rose from the aviation field bordering the gulf early this morning, turning his biplane northward and flew over the level stretch near the artillery camp at an altitude of about 500 feet. He was plainly visible to several soldiers who said his biplane seemed to be running smoothly. Without warning, it turned its nose downward and plunged almost straight to the earth. The impact broke nearly every bone in Call's body.

The "warm air" theory was advanced by officers at the aviation camp, who were familiar with the territory over which Lieut. Call flew.

While a board will be named to investigate, the view is expressed that nothing remains about the wreckage to show the accident's real cause.

Washington, July 8.—The death of Lieut. Call today makes a total of 10 in the interest of government aviation work, nine fatalities being credited to the army and one to the navy, since experiments in aerial navigation was started with heavier than air machines at Fort Myer, Va., in 1908.

HYDRO-AEROPLANES WRECKED.

Two of the Trio Sailing From Chicago Come to Grief.

Chicago, July 8.—Two of the three hydro-aeroplanes which started from Chicago today to fly to Detroit, were wrecked over Lake Michigan by squalls and fell into the waves far from land.

Anthony Jannus, of St. Louis, and his mechanic, Paul McCullough, were picked up off South Chicago, by the steam sand dredge Dahlke. Walter Johnson, of New York, flying alone, was rescued near Whiting, Ind., by the South Chicago United States Life Saving crew. Jannus' machine was abandoned in a squall after the dredger had started to tow it ashore. The life savers brought Johnson's craft to shore and he may resume his flight.

Beckwith Havens, carrying as passenger J. P. R. Venplanck, of Fishkill, owner of the machine, reached Michigan City in safety, the only one of the aviators originally scheduled to start who made the first lap.

HURRY CALL FOR ICE CREAM

Crazy Man Made Rough House When They Didn't Produce It

Durham, N. C., July 8.—Eli Dezern, an insane white man being treated in Watts Hospital here, created a rough house in the hospital Saturday night about midnight when he suddenly took a notion he wanted ice cream and wanted it right away. The colored attendants promised to get it for him as quick as they could and began to freeze the stuff with all the speed they could muster, but their speediest was too slow for Dezern. He seized a chair and cleared a space around him amply large enough for many more than one person. He was sent to the county jail where his insistent demands do not take such vigorous form as they had in the hospital.

The Colored People Will Take a "couple" of Hands In It?

JUDGMENT FOR COAST LINE

Railroad Wins in Damage Suit for Diamonds Destroyed in Lucama Wreck—Durham Company Is Restrained

(Special Star Telegram.)

Raleigh, N. C., July 8.—Judge H. G. Connor, in the Federal Court today, filed a judgment in the famous and long-standing case of United States vs. Atlantic Coast Line Railroad Company, involving $9,000 worth of diamonds shipped by Rousselon Freres & Co., Paris to Gurcia Crugedo Y. Sobrine, Havana, Cuba.

The diamonds were lost in a wreck at Lucama, this State, and the suit has been pending for a number of years. The judgment is in favor of the defendant Atlantic Coast Line Railroad Co., holding that the railroad company is not liable.

An interlocutory restraining order was issued today by Judge Connor in the Federal Court against the Byrd Textile Mfg. Co., of Durham, restraining the company from the manufacture and sale of the Byrd knotters, in general use in cotton mills, until there is an accounting in the damage suit brought against the company by the Coleman Barber Company, of New York, for infringement of a patent. There is a previous judgment that the Byrd knotter is an infringement and this has been affirmed by the Court of Appeals.

A charter is issued for the Carolina Licensed Automobile Dealers' Association, incorporated at Charlotte. It is a mutual company without capital, being for the purpose of protecting dealers who are members from dealers who do not comply with the statutory laws regulating the business, and serves as a clearing house for the prices, sale, identity and insurance of machines. Membership fees are to be prescribed. The incorporators are C. C. Coddington, A. Burwell, J. H. Ham and Lee A. Folger.

BIG STRIKE RUMORED.

Hundreds of Railroad Employes Favor Tie-Up.

New York, July 8.—Peace overtures ceased here today between 45 Eastern railroads and 100,000 members of the order of Railroad Conductors and the Brotherhood of Railroad Trainmen, after the employees' representatives in conference with the railroad managers announced that 94 per cent. of the men had voted to strike for increased wages.

Final action on the proposed tie-up remains with the general committee of one thousand conductors' and trainmen's organizations, and a meeting has been called for Saturday. It is the unanimous opinion in operating circles that the strike vote will be ratified unless the companies offer increased wages or agree to arbitration.

During negotiations today the Erie railroad and two subsidiaries, the New Jersey and New York and the New York, Susquehanna and Western, withdrew, leaving 42 roads in the conference. The Erie system claims the increase demanded represents an annual cost to the three roads of $1,200,000, and that the system in paying this sum would suffer in safety appliances and equipment.

The managers' conference committee will meet Monday to consider the decision of the employees' general committee. The railroads are then expected to make their ultimatum.

It was said today that the Erdman Arbitration act was not mentioned at the conference, but comment among railroad and union representatives tonight showed a general expectation that the men would appeal for arbitration before deciding to walk out.

NEGRO RESISTS OFFICER.

Kinston Deputy Sheriff Has Difficulty in Arresting Bad Man.

(Special Star Correspondence.)

Kinston, N. C., July 8.—Herman Allen, a negro, gave Deputy Sheriff H. V. Allen no end of trouble when he sought to arrest him on Shine street, in South Kinston, after the colored man had assaulted a woman of his race with a knife. When the officer arrived Allen told him that he would not be taken to jail alive; that he would have to be killed before he would move a step. He resisted successfully, being a larger man than the deputy sheriff. Negro bystanders refused to aid the officer. Finally, when Deputy Allen had lost patience after hearing a deal of abusive language applied to him, including a vile epithet, he drew his revolver, striking the negro over the head with the muzzle end of it. His finger was on the trigger and at the same time that he struck the man the weapon was discharged, the ball going over his head. Allen fell, a bad looking gash on his head, and doctors who passed were called to examine him. He was carried to the county jail without further difficulty. Carrie Williams, the woman who was cut by Allen, was slashed on the hands and other portions of her body, besides having been whipped.

DEEPEN RIVER CHANNEL.

From Orangeburg to Charleston—Plans Considered.

Washington, July 8.—The United States board of engineers for rivers and harbors on July 15th will hear arguments in favor of improving the Edisto river from Orangeburg to Charleston, S. C. The river now is navigable for a portion of the distance and it is desired that the government undertake its widening and deepening to permit shallow draft, stern wheel steamers to engage in traffic between the two cities.

The board also will conduct a hearing on a proposal for the continuation of improvements in Savannah harbor and the improvement of the intercoastal canal between Sabine and Galveston, Texas.

CAPTAIN BLONDELL.

In his famous water exhibition including fancy and trick swimming, marine fireworks, reproduction of ships on fire, etc., at the Beach, Wednesday, Thursday and Friday, July 16th, 17th and 18th. Night exhibition only. Exhibition takes place in the sound at Lumina wharf. 2t

THE WALL STREET STORY CONTINUES

The Lobby Investigators Take a Look Through Lamar's Spectacles.

WITNESS GIVES HIS REASONS

Bear Operator Tells Investigating Committee He Tried to Cause an "Explosion" in the Market Place

Washington, July 8.—The Senate Lobby Investigating committee took a look at Wall Street today through the spectacles of David Lamar. The operator on the bear side, who admits that he bandied about in the market place the names of men high in Congress and took the committee completely into his confidence. For all the machinations he contrived there were after all, he swore, but two reasons. He wished to cause an "explosion" which would bring the Wall Street men whom he felt were antagonistic to him "into the open" and he wished to insure the re-employment of Edward Lauterbach, his lawyer friend who had fallen into disfavor with the mighty of the Street.

Although the committee tried to develop that there might have been some other consideration involved, Lamar denied such an allegation as often as it was made. He was on the stand for several hours and although five Senators wielded the scalpel at various times, they uncovered nothing that Lamar did not wish to reveal. Time after time he seemed to be on the verge of some admission, to which patient questioning had brought him, but he veered away and no pursuasive or lawyer-like threatening could bring him back again. He was only playing Wall Street's game, he said, when he made such frequent use of the telephone and talked about what might be done in Washington through prominent members of Congress. It was the game he had known most of the 25 years he had been in the Street, he said, but he was through with it now. He was sorry for the publicity that had been given to the reports of influence in Congress, but except for that he thought that the end justified the means. The explosion had occurred, he added, and his enemies had been dragged into the open to prove charges circulated for many years in the financial district against himself and Lauterbach. He summed up his whole story in a few words when he said:

"It was the Wall Street game I was playing. In Wall St get you don't act like you do on a New Jersey farm."

Later he added bitterly:

"I am the only villian in Wall Street. All the others are actuated by the highest motives and possess the highest ideals."

Lamar's examination was finished today and both he and Lauterbach were allowed to go, with the understanding that if wanted they should appear again.

With their departure the committee took up the sugar lobbying again for three hours with a short excursion into the land of the wool lobby.

The Sugar Story

Charles D. Westcott, a Washington attorney, who lives in Cuba, took up the sugar story again. He told of an unsuccessful effort he made to get Cuban planters to put up $25,000 for the expenses of a free sugar campaign in Washington to offset the efforts of the anti-free sugar. He declared that his effort failed after he had believed it successfully launched, and gave it as his opinion that the "sugar trust" had been responsible. He said the 'trust" accomolished this end by its influence with Cuban banks which could force the growers to do what they wished by refusing to extend them necessary credit. He added that the Agrarian League, to which every Cuban grower feels obliged to belong, was dominated by the "trust" and that acting in compliance with the "combines'" wishes it had opposed a free sugar campaign.

Westcott was put through a searching cross examination by Senator Cummins about these statements. He finally said that he personally did not know anything about trust domination in Cuba but his statements were made on information given by growers.

He read to the committee a letter from R. R. Hawley, president of the Cuba-American Sugar Company, of New York, which he said was allied with the "trust" in which Hawley opposed free sugar, arguing that Cuba benefitted more by the preferential now enjoyed under reciprocity than she would with free sugar.

Senator Nelson caused much amusement when he insisted with Westcott to know about a letter he wrote to the President's secretary, Mr. Tumulty, in the Winter urging that Mr. Wilson keep up the fight for free sugar.

The witness said that shortly after he wrote that letter the lines of the free sugar advocates in the Ways and Means committee of the House were "stiffened."

"Your letter stiffened up the free sugar firing line?" said Senator Nelson.

"Well, it stiffened shortly after I wrote it."

"Are you sure the President ever read it?"

"No, sir."

"Well, it acted as a sort of starch on those wavering members of the committee?" continued Senator Nelson, while the chairman rapped for order and stopped the laughter.

"Oh, no," the witness said with a show of embarrassment.

The committee room was filled all day long with members of the Senate and House.

William Whitman, of Boston, one of the men interested in wool under

GIANTS PASS HOODOO POINT

Hung Up Their Thirteenth Straight Victory Yesterday—Phils Dropped—Browns Won—Ames Again Starred.

The Giants passed the hoodoo station yesterday, winning their 13th straight game in the opening session with the Chicago Cubs at New York Polo Grounds. The Cubs hit Tesreau freely until he was retired in favor of Rube Marquard, who held them safe in the latter frames.

The Phillies dropped their opener with the Pittsburg Pirates, the game going into one extra inning after the Pirates tied it up in the ninth.

The Boston Braves won agan yesterday defeating the St. Louis Cardinals in their opening engagement. McDonald, the leading swatter of the National League, figured in the winning of the game with a timely single in the seventh inning.

Leonard Ames, a McGraw discard, by the way, won his second consecutive game from the Cincinnati Reds yesterday, defeating the Brooklyn Dodgers 2 to 1. Ames allowed a total of seven hits in a spectacular battle with Allen, of the Dodgers.

Giants Pass 13th.

New York, July 9.—The New York Giants ran their winning streak up to 13 games today when they took the first game of the Chicago series 6 to 5. Lavender pitched a strong game, but received wretched support, especially in the seventh inning. The Cubs hit Tesreau hard and freely.

Chicago .....100 004 000—5 13 4
New York .....010 001 40x—6 8 1

Lavender and Archer and Bresnahan; Tesreau, Marquard and Meyers; time 2:21; umpires Rigler and Byron.

Phillies Lose in 10th.

Philadelphia, July 9.—Miller's home run drive over the right field fence with two bases occupied in the 10th inning gave Pittsburg a victory over Philadelphia here today. The score was on his double and singles by Knabe and Lobert.

Pittsburg .....000 001 0113—6 13 0
Philadelphia ...020 000 0101—4 9 0

Camnitz, McQuillan, Cooper, Hendrix and Simon and Coleman; Mayer, Zaton and Killifer; time 2:05; umpires Brennan and Eason.

Braves Won Again.

Boston, July 9.—Griner gave three bases on balls in the seventh inning today and these with Rariden's double, a single by McDonald and O'Leary's error enabled Boston to win 6 to 2. The home team batted hard throughout the game.

St. Louis .....010 000 001—2 6 3
Boston .....000 001 50x—6 9 3

Griner and Wingo; Tyler and Rariden; time 2:05; umpires Klem and Orth.

Ames Won Another.

Brooklyn, July 9.—Cincinnati took the first game of the series from Brooklyn today 2 to 1. Ames and Allen had a pitchers' battle, the former getting better support. Dodge played a great fielding game at third, while Collahan and Moran made sensational running catches.

Cincinnati .....000 010 010—2 6 1
Brooklyn .....000 001 000—1 7 3

Ames and Clark; Allen and Miller; time 1:44; umpires Quigley and Emslie.

THE WORLD TOUR.

Foreign Consuls Will Look After Giants and White Sox.

Chicago, July 7.—Manager James J. Callahan, of the White Sox, was given a double duty today by Charles Comiskey, the first being the reading of a letter from Secretary of State Bryan and the second the devising of an answer.

This important missive, written in the handwriting of the man who ran for the executive office of this country three times, had to do with the tour of the world by the White Sox and the New York Giants next Winter. Secretary Bryan informed Callahan and his cohorts that as soon as the itinerary of the trip is made out he will instruct all his consuls to look out for "the greatest aggregation of ball players on this earth." Secretary Bryan further says his information to his consuls will include a personal request to "make it easy for the fellows on the long journey."

The letter that went back to Secretary Bryan carried with it the thanks of Comiskey as well as the members of the White Sox, but Callahan refused to give the exact wording of the answer.

ATHLETICS WON ANYWAY

Played Exhibition Game With Syracuse State League Team

Syracuse, N. Y., July 8.—Good's error in the ninth with two men out gave the Philadelphia Athletics a 4 to 3 victory over the local State League team this afternoon in an exhibition game. Johnson pitched superb baseball against the American League leaders.

Syracuse . . ..020 000 100—3 7 2
Philadelphia . .100 000 003—4 6 1

Johnson and Munich; Mowrey and Thomas. Umpires, Eckman and Corcoran.

PUGILIST SERIOUSLY ILL.

His Condition the Result of a Severe Beating.

Los Angeles, July 8.—Bud Anderson, the Oregon lightweight boxer, who was defeated by Leach Cross at Vernon July 4th, is in a serious condition in a Santa Monica hospital. The beating he received is believed to have affected his kidneys. Dr. Palmer, the attending physician, said today that Anderson was "a very sick man."

"REB" RUSSELL'S PROSPECTS

Jimmy Callahan Predicts Great Future for Left Handed Twirler

Jimmy Callahan, leader of the Chicago White Sox, expresses the opinion that "Reb" Russell, the left hander who has been doing yeoman service for Chicago this season, will, in another season or two, be recognized as one of the greatest—if not the greatest—left hander the game of baseball has ever known.

"This boy has everything," enthuses Callahan. "He has speed; he has curves; he has control; he has nerve; he has strength. What more could I ask for? Take it right from headquarters, Russell will be considered a wonder before the 1913 season is at an end. Russell has filled the gap caused by the absence of Walsh and, mark my words, when Big Ed regains his old form, a few other clubs around this American League will have their troubles winning from us.

"Russell gets out of a lot of tight places on his nerve. Three men on the bases, with none out, is a situation that fails to shake him. In fact, it is in the pinches that he shows to advantage.

"I'll also take Chase in preference to any two first basemen in the country. He's saved many a game for us since reporting, and he's entirely satisfied with his new berth. Before the close of the 1913 season followers of baseball are going to read a lot about the Chicago White Sox—and Russell and Chase, in particular."

MAXTON BEATS M'COLL.

Huntley Strikes Out a Dozen Men. Slow Game.

(Special Star Correspondence.)

Maxton, N. C., July 8.—In a rather slow and uninteresting game on the home diamond Maxton beat McColl by a score of 7 to 2 this afternoon. Maxton had one bad inning, the third, when a two-bagger by Legge, a base on balls and errors gave McColl her only runs.

The game was simply a case of too much Huntley, who besides striking out 12 men, in the fifth with two men on bases knocked a home run, thus winning his own game. In the seventh Maxton with a two-bagger, two singles and errors by McColl netted four more runs.

Batteries: for McColl, Ingram and Brown; for Maxton, Huntley and Hasty.

TICKETS FOR WORLD SERIES

Reservation Orders Being Received for Games Between Leaders

New York, July 8.—So sure are some persons that New York and Philadelphia will be the winners of the National and American League baseball pennants, respectively, that they already are placing orders for tickets for the next world's championship series between these two clubs.

Secretary John B. Foster, of the Giants, it developed today, has received orders based on the supposition that the Giants and Athletics will be the winners.

One request that came in a letter from Havana asked reservations for the games in Philadelphia as well as at the Polo Grounds in this city.

Real Estate Transfers

Deeds were filed for record yesterday as follows: H. L. MacMillan and wife to H. McC. Stanford and wife and McD. B. Wilson, for $10 and other considerations, lots 1 and 2, Winter Park Gardens; Wilbur R. Dosher and wife to C. E. Bethea, for $100 and other considerations, lot at Carolina Heights, on south side of Princess street, 125 feet east of 19th, 33x150 feet in size; Emma T. Stewart and husband, W. R. Stewart, and Aliena C. Matthews and husband, S. A. Matthews, to R. E. L. Cook, of Tarboro, for $10 and other considerations, lot on southeast corner of Front and Castle streets, 66x70 feet in size.

Bankers Will Take a Hand In It? (Advertisement.) 3t.

WITH THE MOVIES

Truly is the popular Bijou bubbling over with joy these days. It is the delightful mecca for the old and the young, ladies and gentlemen. It never raises its price of admission from 5 cents, afternoon and night. Today the Bijou has another superb bill to set before the people and it will be greatly appreciated. It is headed by "Prisoners of War," which is a tale of an old soldier's struggle for a pension. There are two fun films on today that are peaches. One is the Vitagraph's "A Matter of Matrimony," telling how an old sailor tries to get married, and the other is "A Timely Bath," being a story of an intrepid young lover who reaches his lady fair via the fire escape. "A Tour of the Alps," a great travel film, is also a feature today.

The Grand Today.

This is going to be a big day of big laughs at the handsome Grand Theatre, and what could be more delightful during such warm weather. The laughfest will be headed by Kalem's "When Women Are Police." It is a film of the very moment, as can readily be imagined, and it is a rouser. Next will come "Percy's Wooing", which tells how Percy has to qualify as a manly man to win his girl. Then there is another strong comedy on in "Lady Audley's Jewels," which is a scream for mirth. However, while comedy is strong today the dramatic has not been lost sight of and in Lubin's "Brightened Sunsets", will be found a tender, beautiful story that will reach every heart and leave sunshine in its wake.

Examinations Tomorrow.

Entrance examinations to the A. & M. College, Raleigh, will be held by Prof. Washington Catlett, county superintendent of public instruction, tomorrow, beginning at 9 A. M. At the same time examinations will be held for white teachers for the public schools of the county. On Friday colored teachers will be examined.

GRAND CIRCUIT RACES

Spectators Get More Thrills During Second Day of Racing

Cleveland, Ohio, July 8.—Bigger fields and faster time furnished more thrills for the spectators in the second day's races of the opening Grand Circuit meeting today. Warmer weather was in favor of the horses today for the running of the Forest City, the fastest pacing stake of the meeting and although the record for the event was not broken, the finishes in each heat were exceedingly exciting.

The race for the 2:24 for the biggest purse, was perhaps the hardest fought of the day. In the first heat, the word was not given until the horses scored the sixth time. Uncle Biff, a Cleveland horse, an overwhelming favorite, showed the way from start to finish. In the second heat, Uncle Biff held the lead until the stretch when he tired, and Santos Maid and Creosote fought it out, the former winning by a scant margin. Santos Maid led the field all the way in the third heat. The sweep stakes, first heat, was a race between Cegantle and Etawah. One hundred yards from the wire Cegantle broke and barely finished fifth. In the second heat, Etawah got a flying start and maintained his lead, the field being well bunched behind him.

Walter Cochat, the favorite in the Forest City stake, could do no better than third in the first heat and second in the next two. Branham Baughman, who was second in the event last year, won the first heat. Longworth B., won the second by a head in 2:04, within a quarter of a second of the record set last year by Braden Direct. The third heat was a repetition. Murphy driving Longworth B., home in front, hard pressed. After taking the first heat of the 2:09 pace, Vera B., owned by J. E. Gray, of Toronto, was passed in the stretch by Foote Prince in the next two heats.

FUNERAL OF MRS. TREMAIN

Services at St. Andrew's Presbyterian Church Yesterday Afternoon

The funeral of Mrs. F. W. Tremain, who died Monday afternoon at the James Walker Memorial Hospital, was held yesterday afternoon at 5 o'clock at St. Andrew's Presbyterian church, conducted by the pastor, Rev. Dr. A. D. McClure. The interment was at Oakdale cemetery. There were a large number of friends of the bereaved family in attendance and many beautiful floral designs.

Members of the Christian Endeavor Society attended the services in a body and escorted the remains to the cemetery where they placed appropriat floral designs upon the grave. Mrs. Tremain was a faithful member of St. Andrew's Presbyterian church from the time that she became a resident of Wilmington and was highly esteemed for her many Christian graces of character.

The pallbearers were: Dr. James C. Stewart, elder; Dr. R. B. Slocum, chairman of the board of deacons, and Messrs. D. L. Leonard and Joseph Sharrock, deacons. From the Christian Endeavor Society, Newton Fisher and William Murphy.

SIX BITTEN BY RABID DOG.

Pee Dee Scene of Considerable Excitement Last Evening.

People coming in on the Charlotte train due here at midnight brought a story of great excitement at Pee Dee, N. C., last evening when a rabid dog bit six persons in the town, and possibly more as it streaked across the country. Large numbers of men gave pursuit and 'phone messages were sent into all that section. One young lady, bitten four times just as the train was due at Pee Dee, was hurried on board and sent to Raleigh via Hamlet to take the Pasteur treatment given at the State Laboratory of Hygiene. As is almost always the case, the dog was a worthless "yaller" cur of the type that roam everywhere without restraint.

Loane, Plymouth, lieutenant junior grade, naval militia; V. E. Everett, Plymouth, lieutenant in naval militia.

DISTRESSING ACCIDENT

Mr. J. D. Petete Has Foot Badly Mangled in Gasoline Engine

Vista, N. C., July 8.—While assisting in the erection of a gasoline engine at the Carolina Cea Food Company's plant here this morning, Mr. J. D. Petete, formerly of New Hanover county, had the misfortune to get his foot caught in the fly wheel of the engine while attempting to start it, and as a result his foot was badly mangled, although as yet the exact extent of his injuries is unknown.

Mr. and Mrs. Petete went to Wilmington on Atlantic Coast Line train No. 65, this afternoon, where medical attention will be given him. His many friends will await with interest the result of his injuries. Mr. Petete and family only recently moved here where he is engaged in the fishery business.

WIFE MURDERER SUICIDES

Fortune Tellers' Story Drives Husband Into Jealous Frenzy

Salisbury, Md., July 4.—Nelson A. Baker, a prosperous farmer of Pittsville, Md., in a frenzy of jealousy today, killed his wife with a shotgun in the kitchen of their home as she was preparing breakfast for the family. After chasing his four boys to shelter, in a mad rush to kill them, he ran to a nearby field and committed suicide with the same weapon.

Baker's 10-year-old son Frank, stood at his side when he killed his wife. The child thought it was a joke till his mother crumpled in a heap on the floor, with her head blown off. His shrieks, as he fled, warned his brothers of their danger, and all found safety in the barn.

It is said that Baker had been told by a Gypsy fortune teller that a man who frequently passed the house would take his wife away from him, and this is thought to have driven him temporarily insane.

TO RESUME INVESTIGATION

Extension of Labor Troubles Complicating Committee's Work

Washington, July 8.—The Senate investigation into the West Virginia coal strike will probably be resumed next week, Chairman Swanson, of the committee, said today. With the appearance of witnesses for the coal operators in the Paint Creek and Cabin Creek fields, Senator Kenyon will be authorized to go to Charleston and complete taking testimony there.

The resumption of the strike rioting in Paint and Cabin Creeks and the extension of the labor troubles to the New River field are expected to complicate the committee's work.

MAKE NEW REELS

Movie Actors Going to Land of The Sky

Asheville, N. C., July 8.—It has been learned here that a company of 18 Vitagraph players will arrive in western North Carolina within the next few days for the purpose of securing motion pictures among the mountains of this section. The actors will spend their time at Bat Clave, where four reels of pictures were taken last Fall.

They will spend several weeks in the Land of The Sky, pushing villians from cliffs, scalping innocent women, shooting Indians, rescuing heroines from waterfalls and chasing outlaws among the peaks.

KAPPA DELTAS MEET

Sorority in Eleventh Annual Convention at Asheville

Asheville, N. C., July 7.—The 11th annual convention of the Kappa Delta Sorority opened here today with morning and afternoon session, Miss Jean Winslow Coltraine, of Concord, N. C., presiding. Delegates from all sections of the country are in attendance. The first business session will be held tomorrow morning. While here the delegates will be entertained by the local Kappa Deltas.

DAY IN CONGRESS

A Day's Proceedings in the House and Senate

Washington, July 8.—Senate: Not in session. Meets Thursday.

David Lamar continued testimony before Lobby committee.

Finance committee worked on tariff bill.

House: Not in session. Meets Wednesday.

Atlanta, Ga., has installed a new waterworks pump capable of pumping 10,000,000 gallons an hour.

THE THIN AND WEAK

Easy Way for Them to Get Strong and Fat

To thin and weak people J. Hicks Bunting has a word to say. Let them use Samose, the wonderful flesh-forming food, that is now so popular, and they will soon be plump and rosy.

Samose is not an ordinary medicine; it is a flesh-forming food that is adapted to the most delicate. Its tonic effect gives strength and health so that after its use for a short time, all the flesh and fat-producing elements in the food will be easily assimilated and retained by the body.

The large sale Druggist J. Hicks Bunting had on Samose since he first Bunting has hado on Samose since he first introduced it in Wilmington and the wonderful results following its use have made him such an enthusiastic believer in its great merits that he gives his personal guarantee to refund the money if Samose does not make thin people fat and restore strength and health.

When a gain in weight is noticed after Samose has been used for a week or ten days, and health has improved, and you notice yourself growing stronger, you certainly should feel more than satisfied with what you have received from the small cost of 50c.

BURGAW MONUMENT SITE

The Commissioners Decide That They Shall Say Where—News Notes

(Special Star Correspondence.)

Burgaw, N. C., July 8.—The location of the Confederate monument, which seemed settled last week when the Daughters of the Confederacy selected the vacant spot south of the Court House, is again up in the air, as the County Commissioners have decided that they have the say-so in the matter. They say it shall be located in the walk in front of the building.

This decision is highly unsatisfactory to a majority of the Daughters and they are not disposed to abide by it, saying that inasmuch as they have been working 10 years to get a monument, it ought to be their privilege to say where it shall stand. They have a notion to decline the $500 given by the county, raise the amount by private subscription and put the monument where they please. Monday afternoon it was reported that $100 had been offered by citizens, after the action of the Commissioners became known. Many think that the intersection of Fremont and Wright streets is an ideal place, as the monument could be seen from all directions. The ladies have their "Irish" up and there will most likely be something doing.

The Board of Education could not finish all the business that came before it yesterday and continued the session until today. R. K. Bryan, Esq., whose term of office expired yesterday, and who was re-appointed by the Legislature, took the oath yesterday and was re-elected chairman of the board.

Mr. F. T. Croom, having been confirmed as postmaster, will likely take charge this week.

Mrs. Tiney Simpson, formerly of Point Caswell but now living at Pilot Mountain, visited friends here Monday.——Capt. R. P. Paddison and Mr. J. C. Pretlow, of Point Caswell, were here Monday.——Messrs. Jesse L. Lucas, of Currie; J. Q. Bell, of Long Creek, and W. W. Pearsall, of Rocky Point, spent Monday here in business. ——Miss Annie Barnes left Monday for her home in Reidsville via Raeford, where she will visit friends.——Miss Annie Lucas, of Currie, is spending the week with Miss Douglas Hand. ——Friends will regret to learn that Mr. Rodney Turner was taken quite sick in New York with tonsilitis last week, and has had to abandon a part of the trip he and his bride were making.

SOLDIERS AT CAMP GLENN

Second Regiment National Guard at Morehead for Practice

(Special Star Correspondence.)

Camp Glenn, Morehead City, N. C., July 8.—The Second Infantry, North Carolina National Guard, arrived here this morning and made camp for a stay of eight days for instruction in drill and rifle practice.

The sun had not risen when the several trains bringing the soldiers rolled into the camp station at intervals of a few minutes, and by daybreak the camp site had become a tented community of 800 souls, smoke was pouring from the stacks on the leeward side of the long mess hall in preparation for a "government" breakfast, the guard had been told off for the first 24 hours' duty tour, and the routine of the post administration was working smoothly.

Col. W. C. Rodman, of Washington, is in command of the Second Regiment. J. VanB. Metts, of Wilmington, is the lieutenant colonel. Other officers of Colonel Rodman's staff who are conducting the affairs of the regiment from headquarters are Capt. N. R. Morgan, adjutant; Hill, quartermaster; Black, commissary. The oldest officer in the National Guard is the regimental chaplain, Rev. Capt. Nathaniel Harding. Captain Cohen is the inspector of small arms practice.

Companies from Tarboro, Kinston, Rocky Mount, Goldsboro (two), Fayetteville, Washington, Clinton, Edenton, Wilson, Lumber Bridge and Dunn, and the band from Kinston, comprise the regiment. A detachment from the sanitary troops consisting of an officer and 12 men from Kinston, is stationed at the postal hospital. The band has about 35 pieces and there is a corps of field music with 24 trumpeters. Majors Elliott, Pace and Faircloth are the battalion commanders, each with a staff of two officers and a non-commissioned officer. The non-commissioned staff at headquarters includes the regimental sergeant major, quartermaster sergeant, commissary sergeant and two color sergeants.

The Second Regiment is made up of men from the coast, from the eastern tobacco belt and from the trucking counties of Eastern Carolina. It was mentioned by the Tennessee papers in 1908, when it was sent to Chickamauga Park together with eight or nine other militia outfits, as superior in appearance and discipline.

WOMEN ON COMMITTEES

Mecklenburg Board of Education Named Four for Ensuing Year

In appointing school committeemen Monday for the ensuing term the Board of Education of Mecklenburg county named four women members of committees. They are Mrs. W. C. Crosby, in district No. 2, Charlotte township; Miss Margaret Morris, in district 4, Progress, Crab Orchard township; Miss Addie Houston, Hopewell school, Long Creek; Mrs. J. T. Garrison, of Pineville. It will also be of interest to note that Mrs. W. B. Blythe, of Huntersville, who was the first woman ever appointed on a school committee in Mecklenburg county, has resigned, but no information is given as to why she gave up the position. Her place has not yet been filled. The action of the Mecklenburg board is of especial interest in this county now as the New Hanover board has been asked to name women on school committees and action on the matter will be taken at an adjourned meeting of the board tomorrow afternoon at 4 o'clock.

INDEBTEDNESS PAID OFF.

Pearsall Presbyterian Memorial Church Ready for Dedication.

All of the indebtedness on the Pearsall Presbyterian Memorial church, located on the Scott's Hill road, three miles east of Wilmington, has been paid off, and the church is now ready for dedication. It is expected that the dedicatory exercises will be held in the early Fall. This is a handsome brick structure which was recently completed. It is a mission church under the care of St. Andrew's Presbyterian church. For 22 years the pastor of St. Andrew's, Rev. Dr. A. D. McClure, has been preaching at this mission and it is due to his untiring efforts that the church was built. It now has a large membership which is rapidly increasing in numbers.

Vancouver, B. C., July 8.—Bob Ingersoll, considered one of the best pitchers in the Northwestern League, has been sold by Vancouver to the Cincinnati Nationals for $3,000.

All art squares and rugs will be sold 40 per cent less than sale's value. Gaylord-Platt Co.'s One-Article Sale. (Advertisement.)

Wood's Seeds.

Late Seed Potatoes

June and early in July is the best time for planting for the fall crop for winter use.

Our stocks are specially selected Seed Potatoes, put in cold storage early in the season, so as to keep in first-class, vigorous condition.

Book your orders early, to be sure of getting the varieties you desire.

Write for "Wood's Crop Special" giving prices, and timely information about all Seasonable Seeds.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months; $1.50 for three months; 50 cents for one month, served by carriers in the city or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No 61. Call either if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable, and all communications should be addressed to,

THE WILMINGTON STAR CO.,
Wilmington, N. C.

Wednesday, July 9th, 1913.

Liberty, according to the ideas of some people in this country, is doing what they want you to do.

In the course of social justice no doubt a good many reformers would get what's coming to them also.

The way of the transgressor is hard, but it is harder for those who are not able to bear the expense of their foolishness.

We ought to have a financial system in this country that would make the farmer its beneficiary instead of its victim.

If charity really began at home, as they say it does, a large part of the grandstand could be utilized for other purposes.

Where is the old-fashioned gentleman who used to mix his water and sugar and brandy every blessed A. M. that dawned?

Hot weather stirs up the bats in the belfry of people who at best can hardly keep from getting hot in the collar in a blizzard.

No diplomat ever had to wonder what he had done, next morning, after a night's debauch on grape juice and buttermilk.

Man wants but little here below;
But he wants it good and strong;
It sets his blooming nose aglow
If he takes that little very long.

"Man put woman on a pedestal," says a writer. It is up to her to stay there. If she gets cold feet and comes down she no longer is up there.

The Agricultural Department forecasts a cotton crop of 15,000,000 bales. If it turns out that way, the farmer who plants plenty of corn is in luck.

The suggestion of the Charlotte Observer that the Balkan allies settle it in a series of games for a pennant is impracticable because the supply of umpires is limited this season.

Having investigated everything else, practically, Congress is now trying its hand at investigating itself. The chances are it will have even poorer luck than it has had in other cases where it used the "probe."

Some old fellows want to know why they don't hold a big celebration at Bull Run, Chancellorsville, Cold Harbor and a few dozen other places where the result was different from that of the Gettysburg affair.

The "Wolf of Wall Street," who has been impersonating Congressmen, seems to have abandoned all idea of standing on his own reputation. The probability is that even Wall Street will disown so disreputable a villian.

No wonder those guys at a county fair at Griffin, Ga., dropped everything to rubber at a Macon girl who ventured into that community arrayed in a slashed skirt. Usually there is nothing to be seen at a fair in a country which does not produce what it eats.

Governor Craig and the Council of State are beginning to see the inevitable. Leasing convicts for worthless stock in railroads is taking money out of the treasury instead of putting it in. The convicts ought to bring the State $1.50 a day, or be made to create lasting value in building good roads. The State is in no position to invest in railroad stocks by exchanging convict labor for them. The people foot the bill by paying for the support of the convicts while they are earning only stocks that everybody knows will never be worth a cent to the State.

At the Gettysburg reunion last week, some of Pickett's veterans made a bloodless advance on a remnant of Federal veterans lined up at the "Bloody Angle," where they had fought fifty years ago. It was a hot day, and when a lady asked a veteran if it wasn't quite warm for the old heroes to even make a friendly charge, his answer is quoted as follows: "Yes ma'am; I'm jes' about as hot as I was the last time we all charged, but I ain't so scairt!" Virginia papers please copy and note that the dialect indicates that the veteran was from somewhere in Ole Virginy.

DEMOCRATS FOR TARIFF REVISION.

The Star's Washington dispatches yesterday confirmed the belief of the country that the Democratic party in Congress would carry out its pledges to the people that it would revise the iniquitous Republican tariff in the interest of the people. The House has long ago fulfilled that pledge and turned over to the Senate a bill revising the tariff downward. In the Senate Democratic caucus on Monday 47 Democrats stood up one by one and declared their intention to vote for the Underwood-Simmons bill.

Senators Culberson, of Texas, and Hitchcock, of Nebraska, were absent, but it is known that both are for the bill. This will give the Democrats 49 votes for the bill, or a majority of one, with Vice President Marshall to be depended upon in an emergency, such as would occur if either of the two absent Senators would refuse to be bound by the caucus. Senators Ransdell and Thornton, of Louisiana, refused to be bound by the caucus because of the proposal to place raw sugar on the free list in 1916. Otherwise, they favor the bill, but as it probably will be voted on as a whole, their vote will be lost to the Democrats. Nevertheless, the Democrats are confident of passing the bill by a majority of one.

Senator Simmons probably will report the bill to the Senate tomorrow and he is satisfied it will pass the Senate and become a law, as the caucus action makes it a party measure. The bill as it finally has been agreed upon by the Senate caucus, and as it will be reported in its present shape, is notable for the remarkable fact that for the first time a tariff bill will be reported in the Senate carrying an average lower rate of duties than as it passed the House. At last, it seems, the Senate can no longer be considered reactionary, for it has out-Heroded the House. Thus, both the House and Senate Democrats stand by tariff revision downward, and the party will stand or fall on the action of its Senators and Representatives in Congress. The Washington Times of Saturday in referring to the caucus action on the bill as submitted to it by Senator Simmons, says:

"Never in the history of tariff legislation has the majority membership of the Senate been more solidly in line to support a tariff bill than is the present Democratic majority, it was pointed out today. Ever since the tariff bill was reported to the House weeks ago, predictions have been made that the Senate would remake the Underwood bill, raise rates, so that Mr. Underwood would not recognize the measure. Today the bill carries lower rates than ever, Democratic leaders contend, and there is every prospect that it will be passed by the Senate with only such changes as the Finance committee will recommend.

"The bill today more nearly represents the Democratic principles and at the same time is a more scientific tariff measure than it was before the Finance committee took hold of it, it is said by the Democratic leaders. Members of the House have given them assurance that the Democrats of that body are friendly to the changes which have been made in the measure for the most part, particularly to the most important amendments made by the committee.

"To Senator Simmons, head of the Finance committee, the Democrats are giving much of the credit for the manner in which the bill has been handled, both in committee and in caucus. He has done much to preserve the harmony which was so desired by the Democratic leaders, his friends say. While the debate in caucus has at times been sharp, it was said today that no ill feeling has developed among the Democrats, the nearest approach to such a thing being the feeling which the withdrawal of Senator Hitchcock, of Nebraska, from the caucus when that body refused to adopt his proposed amendment placing a graduated tax upon tobacco production."

The Democratic party carried the country on a platform pledge to revise the tariff downward. As a whole, the revision will be satisfactory to those who are no longer content to be taxed to enrich others. Others, though they desire tariff revision, are dissatisfied at the placing of some commodities on the free list instead of putting a reduced duty on them. However, the party is committed to tariff revision in general and a small free list in particular instances, and only time will demonstrate the wisdom of that method of reducing the tariff.

THE BROADER EDUCATION

It is a cause for gratification to note the sound interpretation of the educational needs and demands of the times by the leaders of education in our State. By leaders we mean here those men who are laboring for the common schools, the "people's college," where the great majority of the people receive all the education they ever get. The strength of this Republic has come from the "little red school house on the hill," or speaking more accurately, the little log school house. The strength of the future must come from the public schools, improved, broadened and made to include all those agencies and influences which will train youth for life as it is lived in a larger day.

Several days ago we had occasion to comment on the recommendations made in the annual report of the superintendent of the city schools, on this subject of a more comprehensive system of training, and we again have occasion to touch the subject as set forth in the annual report of the superintendent of the county schools. Professor Catlett says:

"The times are changing in modes of thought as well as manner of living. The best educators are alive to the fact that much of the old order must be abandoned and a new method used. The environment and the needs of living a useful life are more to be considered. The child must be fitted for what he is to do. We are an active, progressive, industrial people now, and not dreamers. While I shall never be one to abandon wholly the curriculum of the past which trained for intellectual achievement and the so-called professions, I am not unconscious of the conditions which face us in fitting our youth for the life to be led. We are to teach them hygienically, morally, physically and intellectually. We must bring the home nearer the school. The task is vast and is taxing the best professional and lay thinkers of the country."

A county is to be congratulated on having as the superintendent of its schools a man who takes that attitude and who can look out over the field of his work and see so clearly and accurately the defects and the needs of the situation. The remedy is to reach all the children, in a small but practical way, as compared with the farm life schools—a scheme good enough but wholly impracticable in this State now—and teach them how to do those things which must be done in every day living. That is Professor Catlett's idea, and it is the right idea. He would have the country children taught domestic science and give them manual training. They need it as much as the city children, and, perhaps, can use it to better advantage if they elect to live on the farm. An experienced teacher should be engaged, and equipped for visiting every school in the county, teaching the girls how to cook and sew and keep house. For the boys, a competent man and a kit of tools; the county demonstrator and and experiment plat. Visionary? The most practical plan in the world! School would become a delight; youth would step forth from the school house trained to do something—to take immediately a useful place in society—to win its way into higher education, if it wishes; and the State would have a well-rounded young citizenship, capable of taking hold of things and developing North Carolina into a veritable empire.

New Hanover, pioneer in graded schools, for many years a leader in the State's educational progress, will catch this vision of the broader education of all the children, and will quicken educational development throughout the State by her inspirational work.

FAMOUS COLORED FARMER.

The champion cotton grower of the South is a colored farmer in Alabama. By intensive methods, he has demonstrated that it is possible to grow more than eight bales of cotton on one acre of land, since he succeeded in producing a bale of 506 pounds on one-eighth of an acre. Samuel McCall is the name of Alabama's colored farmer, and his success at intensive farming has been so remarkable that the Agricultural Department at Washington is spreading abroad his fame in Farm Bulletin No. 516. The bulletin chronicles this as the result of his intelligent farming and intensive methods:

"Determining upon concentrating his efforts upon a small area of land, he selected two acres near his cabin and has been devoting time and energy to that small tract for the past 21 years. His first effort was to improve the organic content of the soil. Practically everything produced by the soil, except the lint cotton and a portion of the seed, was returned to it. All the manure produced by his horse and two cows was used, but no commercial fertilizer except a little cottonseed meal under oats. Gradually the soil was made deeper by plowing until in a few years it was open and porous to a depth of 10 or 12 inches.

"By 1898 the land was producing seven bales of cotton to the two acres which had first made about two-thirds of a bale each. This ex-slave took up seed selection early and produced a high yielding strain, known locally by his name, as Sam McCall cotton. He has practiced crop rotation during the past few years to advantage. He plants one crop while another is maturing, thus keeping the land always occupied, getting a crop each of oats, corn and cotton from the same ground in one year. The goal of his ambition is to raise nine 500-pound bales of cotton on one acre; he has already succeeded in raising a 506-pound bale on a measured eighth of an acre. In one year he has produced, from one acre, three bales of cotton, 50 bushels of oats and 50 bushels of corn, according to this account."

Note that the colored farmer is a "befo' de wah" darkey. He has followed every detail of the government's farm demonstration work and has exhibited originality and intelligence of his own. He is doing something that will get praise for him wherever agriculture is known. An analysis of the results show that on two acres of land he has produced seven bales of cotton worth $420, or $210 per acre. On one acre he raised three bales of cotton, worth $180, fifty bushels of corn worth $50, and 50 bushels of oats worth $20, the acreage production totalng $260 in value. This wonderful demonstration of the possibilities of land shows that farmer McCall has produced more than nine times as much cotton on an acre of land than is produced on the average acre throughout the Cotton States.

NO FEAR OF PANIC

The bank collapse and other financial difficulties of large concerns at Pittsburgh on Monday made the pessimists nervous. Many predicted that it was only the beginning of a Democratic panic, but Secretary McAdoo's statemeht published in The Star yesterday morning is reassuring. He declared that the general banking condition in the whole country, Pittsburgh as well, is strong and sound, and that no further trouble is feared as a result of the failure of the First-Second National Bank of Pittsburgh.

Those who are so fond of attributing such failures to lack of confidence on account of a Democratic administration will note that the real cause of the collapse at Pittsburgh was rotten banking. As Secretary McAdoo so readily vouchsafed, the failure of the Pittsburgh bank simply is a sporadic case of unsound banking. There is no other significance in it, and he declares that the appointment of a receiver for that institution has removed a standing "sore spot" in the Pittsburgh situation, leaving the general condition in that city sound. In fact, the bank failure in Pittsburgh is a mere drop in the bucket in the finances of that great industrial city.

The real cause of bank failures and the greatest contributing cause of panics is just such banking as was done by that Pittsburgh bank. The Pittsburgh Clearing House in a statement about the failure, gives its real cause. There was a deficit of $2,145,000 in the bank's legal reserve, and reports to the Treasury Department show that one-third of the bank's $3,000,000 capital stock and its entire surplus of profits have been wiped out. National politics, it will be observed, has nothing to do with such failures, as some simple-minded people assume. Unbusinesslike and rotten methods drag down the banks, and it is these financial shells that crush easily when times of stringency arrive.

There are no real signs of a panic in this country. The only people who can create even distrust are the financial groups and gamblers in watered stocks. The crops of the country are said to be the largest in its history, and when a country with plenty has panicky conditions, it must be known that it is owing to the speculators and gamblers and not among the producers.

A farmer ought to be able to borrow capital on his staple products when he finds the market price ruling ruinously low. Co-operative banking has a pleasant sound.

In Raleigh two men took part in a dog fight and men and dogs "fit" until the police pulled the antagonists apart. Nothing will start a row quicker than a dog fight. The chief of police in Lexington was suspended for 30 days recently for batting a man on the head who had slapped the chief's boy for beating another boy who kicked the chief's boy's dog. And the dog wasn't worth killing.

Duke C. Bowers, one of Tennessee's wealthiest merchants, is spending a large part of his fortune in making a fight against fixing the death penalty by a court or jury. He is flooding the State with pamphlets entitled "Life Imprisonment vs. Death Penalty." He could spend his money to better advantage by printing and disseminating the Ten Commandments. No man or woman need fear the death penalty if they heed the Commandment, "Thou Shall Not Kill." Teach people that they can keep themselves out of the electric chair or keep their necks out of the halter by obeying God's Commandments and the laws passed by man to protect society from those who fear neither God nor man.

If man has put woman on a pedestal, as the saying goes, it is up to him to give up to her such a small thing as a seat on the suburban cars. On the Fourth of July and last Sunday night, some women stood up all the way to Wilmington while scores of men were glued to their seats. A lady was overheard to say that she was sorry to see men losing their gallantry. Two men, holding fast to a seat nearby, declared that it wasn't a loss of gallantry but a lack of appreciation on the part of the average woman for any courtesy displayed towards her at the sacrifice of one's comfort and convenience. An old-fashioned gentleman deplored the fact that he observed that men were less gallant and women are less appreciative of the deference due them, but he declared it was no excuse for either to "forget their raising."

CURRENT COMMENT.

A few years ago an elderly gentleman from the North called with his wife on a gentleman here, said he had returned to Raleigh to spend some weeks and frankly admitted that the reason he had done so was because he and his wife had been so much impressed by the fact that Raleigh people who did not know them and had never seen them before, spoke to them pleasantly and in a way to make them feel at home. Here indeed was another proof of the fact that apart from the pleasure and the satisfaction which a gentleman and a gentlewoman always feel from being polite, it pays to be these two things. Raleigh folks in general have always had the fine old fashion of speaking to people, no matter if they never saw them before, and this very politeness brought to Raleigh two delightful people, who enjoyed every moment of their stay for three months, made themselves at home, formed agreeable acquaintances, spent their money freely and are planning to revisit us.—Raleigh Times.

A paper written by Judge Smith McPherson, of the United States court for the Southern District of Iowa, was recently read at a meeting of the National Press Association at Colorado Springs. In his paper Judge McPherson suggested a radical alteration of the relations between courts of justice and writers for the press. Asserting that honest criticism of courts and judges was invited, Judge McPherson said that substantial and matured criticism was of great aid to the courts; that criticism by newspapers tended to make a judge careful. He said, however, that the criticism should be of a kind that the "editor would use in conversation with the judge." Then, said Judge McPherson, there would be no bitterness, but a useful interchange of views. If the views of Judge McPherson more generally prevailed in the courts there would be fewer threats of commitment for contempt and an increased respect for the administrators of justice. We believe it is the endeavor of conscientious editors to enhance rather than destroy respect for the courts.—Greensboro News.

It is plain that the macadam road is a thing of the past. That is to say, no more will be built. It makes an elegant road when new, but when it begins to wear down, no successful way to repair it has been found. On the other hand, we are learning how to build sand-clay roads and they cost a great deal less, while repairs can be made for a small sum, after which the road is as good as new. The point in building sand-clay roads is to first get the right kind of material; the next step is to build them wide enough and with good drains and if these are kept open so that the water is carried off all the time, the work will last a long time. A stretch in this county from Guilford Station to the Forsyth county line just beyond Colfax has been in use nearly two years and it is now in the pink of condition. It was constructed of the right material rightly mixed and the drains have been kept open. Two men can cover many miles a day at this work. A traction gasoline engine draws a scraper, attended by one man. We are not sure, but probably the services of these two men and the machine are not required over one day in the month, but what they do is the salvation of the road, for allow the side ditches to choke up and the water overflow the road and it is done for at once. It is washed away in a short time.—Greensboro Record.

SUMMER TIME
Comfortables

These prices should be attractive—this store has made a Study of the Needs and Requirements of its Customers, and it spares no time or expense to fill their demands. It was never better prepared to take care of every need and request.

The Ripplette Night Gown—nothing is made cooler or more comfortable for Hot Weather. A full supply on display; for only 98c

Mother's Advice To Her Daughter

A Real Live Doll to Fondle Is Womans' Greatest Happiness.

One of the most important matters about which women concern themselves is their future status as a grandmother. And she is wisdom itself who knows of or learns of that famous remedy, Mother's Friend. This is an external application for the abdominal muscles and breasts. It certainly has a wonderful influence, allays all fear, banishes all pain, is a most grateful encouragement to the young, expectant mother, and permits her to go through the period happy in mind, free in body and thus destined to anticipate woman's greatest happiness as nature intended she should.

The action of Mother's Friend makes the muscles free, pliant and responsive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and, in place of a period of discomfort and consequent dread, it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women, hence Mother's Friend is really one of the greatest blessings that could be devised.

This splendid and certain remedy can be had of any druggist at $1.00 a bottle, and is sure to prove of inestimable value, not only upon the mother, but upon the health and future of the child. Write to Bradfield Regulator Co., 132 Lamar Bldg., Atlanta, Ga., for their book to expectant mothers.

CHICHESTER S PILLS

THE DIAMOND BRAND.
Ladies! Ask your Druggist for Chi-ches-ter s Diamond Brand Pills in Red and Gold metallic boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist. Ask for CHI-CHES-TER S DIAMOND BRAND PILLS, for 25 years known as Best, Safest, Always Reliable
SOLD BY DRUGGISTS EVERYWHERE

APPLICATION FOR PARDON.

Notice is hereby given that application will be made to the Governor of North Carolina for the pardon of John W. Law, who was tried, convicted and sentenced at the March term of Criminal Court of New Hanover county, and sentenced to 18 months on the county roads for keeping a disorderly house. MINNIE LAW.

ANNUAL REPORT ON SCHOOLS

Superintendent Catlett Reviews Year in New Hanover County and Makes Recommendations for Next Term.

Following is the annual report of Prof. Washington Catlett, superintendent of New Hanover county schools, submitted to the Board of Education at the meeting last Monday:

"Wilmington, N. C., July 1, 1913.

"To the Honorable Board of Education of New Hanover County.

"Gentlemen:—I have the honor to submit my 12th annual report of the rural schools under my supervision.

"It is with pleasure that I can announce a continued improvement in the enrollment and attendance of the pupils, the interest of pupils and parents in the school in each community, and the work and faithfulness of the teachers.

"The rural sections of this county are rapidly becoming urban in their tastes and demands, caused by good roads, and a tendency of the people of the city to seek country homes.

"With an improvement in manner of living and home surroundings, the old school house of the past has not failed to make itself prominent, and to become an object, repugnant to the eye and arousing a just criticism and demand for betterment.

"Under the wise management of this board during the past year handsome buildings have been erected in districts Nos. 4, 13, 17. These with the work done during the previous year, give us at least five modern, well equipped, two-room buildings for the white children, and two new single-room houses for the colored children. District No. 13 has shown the benefit of this improved accommodation and efficiency by requiring imperatively on account of increase in pupils, an annex forming a third room with a third teacher. But the work is just begun. Our houses do not meet the demand. The house in District No. 10 is too small, and should have an annex, or better still, a new building. The present building is a cheap one, built by subscription, and with but little aid from the county. It is poor policy to add to old buildings. The school building in District No. 3 is of the same nature, poorly constructed, unattractive, inadequate to the needs, and not conveniently situated. I recommend a two-room concrete building and a change of site. The building in District No. 8 is old, unsightly, and inconvenient. I recommend a concrete one-room school house. The colored school house in the district is too small for the children. An assistant teacher is needed to do proper teaching.

"The building for the colored people in District No. 14 is small, unhealthy, and dilapidated. It should be replaced with a new building, and the grounds, or surroundings should be improved. The colored school in District No. 13 needs an addition.

"These, with repairs which have been reported in another paper, are the pressing needs which should be met during the coming year. By the recent generous majority vote of the people for a bond issue to erect school buildings in the city and county, it is evident that this board has the confidence and support of the people in the wisdom and administrative ability displayed by it.

"But well equipped structures are not all that goes to make an efficient means of educating our people.

"The work of teaching and training deserves the closest criticism and care. The times are changing in modes of thought as well as manner of living. The best educators are alive to the fact that much of the old order must be abandoned, and a new method used. The environment and the needs of living a useful life are more to be considered. The child must be fitted for what he is to do. We are an active, progressive, industrial people now, and not dreamers. While I shall never be one to abandon wholly the curriculum of the past which trained for intellectual achievement and the so-called professions, I am not unconscious of the conditions which face us in fitting our youth for the life to be led. We are to teach them hygienically, morally, physically and intellectually. We must bring the home nearer the school. The task is vast, and is taxing the best professional and lay thinkers of the country.

"In order to meet the demand for industrial training in our rural schools, I ask your careful consideration of the following suggestion:

"It is designed to reach in a small but practical way all the children, as compared with costly buildings and equipment in 'Farmlife Schools', which reach only a small number. The cost will not be great; but as one of our city business men, who thinks accurately and works successfully has lately written, it matters not so much the amount of money spent as how efficiently it is spent and what results it brings.

"I suggest that Domestic Science, Cooking and Manual Training be introduced into the rural schools. Space prevents the elaboration of the plan.

"An experienced teacher should be engaged, who will be provided with vehicle, fitted to carry her and the equipment to the different schools in regular rotation. A kerosene cooking stove of the best pattern with outfit, or utensils, will be carried. The girls will be taught to prepare a meal, and lectures will be given them as to what to eat, how to eat, when to eat, and how to cook what is to be eaten. A sewing machine will be provided and the teacher will instruct how to cut, fit and sew. In a short time every school will own its machine gotten in the same way by which it owns its piano or organ. The neighborhood bought it, or the school got up subscriptions for it. The girls will be taught how to make the home attractive, how to set a table, to place the furniture in a room, how to make up an inviting and comfortable bed and many other things to make a tidy and attractive home.

"For the boys, a kit of tools will be furnished, and a competent man, who will teach them the use of the ordinary tools, and how to do plain work. The county demonstrator will give lessons in farming. A small patch of ground will be wired off for planting for experiment and for learning how to cultivate truck.

"I believe this is not visionary but with no great outlay can be successfully accomplished. It will attract the pupils and aid in securing good attendance.

"There are 15 rural districts, containing 27 schools; 15 for the white children and 12 for the colored children. Five white schools employ two teachers each. There are other schools that ought to have two teachers, when it is remembered that the rural schools cannot be graded as the city schools can, hence, one teacher has too many classes, though they are small. Besides the 12 colored schools, the board wisely gave a teacher and a few desks for a school at Almont. The building was constructed by the colored laborers of the three factories, assisted pecuniarily by the officials, or directors, of the factories. The place is on the west side of the river, hence the other schools are inaccessible to these children. I paid visits to the school and attended the closing exercises. They compared most favorably with more pretentious exercises. The enrollment is 44, with an average attendance of 35. The teacher arranged a night school for the older people, and on Sunday the people worship in the building. It has given the factories a class of laborers more orderly and better satisfied, hence more useful. I recommend that a regular district be formed in this place.

"As the census is taken now once in two years, there is no change to report.

"Libraries:—The libraries play no small part in increasing the store of information and cultivating a taste for proper reading among the children. It is now a fixed fact that no school is completely equipped without a well selected library, both for the teacher's use and that of the pupils.

"There are 15 libraries with book cases under lock and key for the white children, and 11 for the colored. This is an increase of one. The white schools have by report 2,166 volumes, the colored schools 785 volumes.

"Supervision:—The enlarged scope of work and the critical demand for efficient workers and satisfactory results have caused the superintendent to be deeply sensible of the duties of the position. Teachers are becoming aware that the people will not be satisfied with mere old fashioned school keeping, but that they must be alert and informed upon the best methods of instruction and possess a store of information to impart, and a skill in training pupils to think and act. In spite of the numerous Normal schools and institutes it has been a very difficult matter to secure thoroughly equipped teachers. It is due, however, our teachers to say that they have been faithful and efficient. The teaching force of this county is far above the average. But when we take into consideration the meager remuneration of a teacher compared with what can be gained in other vocations requiring less skill and exacting preparation, it is plain that the best talent will avoid the teaching profession.

"The work of traning a human being for life is fearful in its responsibilities, and delicate and complicated in its execution.

"Teachers deserve better salaries. I earnestly recommend an increase in the pay of the teachers. From the lack of sufficient pay, we have already lost some of our best teachers, and others are declining positions offered. New Hanover is not now paying the highest salaries. Poorly paid female teaching is more shameful than grinding child labor in the factories.

"Our school session consists of eight months. During this time every school has been repeatedly visited as the law requires, and as many school closing exercises have been attended as time would permit.

"I have examined the children, observed the work being done in the schools, conferred with committeemen, delivered addresses at the commencements, and performed whatever office work was required of me.

"I have held monthly meetings for both white and colored teachers when methods and school matters were discussed and exemplified.

"One drawback has been the lack of quick means of reaching the schools so that more time could be spent in them.

"Industrial Work:—Some very creditable work has been done in the white and colored schools, but especially in the colored. Articles, such as aprons, dresses, and embroidered work has been done. Good specimens of writing and drawing have been brought to this office.

"The rural schools have graduated and will send to the city High School, ten pupils. The school at Masonboro, District No. 4, deserves especial mention and praise, as it will send the largest number.

"Sanitary Inspection and Water:—In accordance with the law of the State, in company with the Superintendent of Health, every school was inspected, fumigated, and cleaned last August before a pupil was allowed to enter.

"I would suggest that a janitor be allowed at each school to properly clean the schools, and that oil be allowed for the floors to prevent dust burdened with germs from rising.

"The question of fuel is to be considered. It is difficult to get wood. I believe it would be economy to supply most of the schools with coal, especially as they are near the turnpike roads and the coal can be delivered by motor cars.

"If the prevention of disease is of any moment, sanitary privies should be provided that cleanliness and hygiene and refinement and modesty may be taught the pupils. Some of the privies are a disgrace to decency.

"The next most serious demand is for pure water.

"Only four schools have deep wells, two or three have no pump at all, and the remainder have surface pumps of questionable quality.

"Fines and Forfeitures:—The fines and forfeitures have been collected and delivered as required by law.

"Finally, permit me to express to this board my deep appreciation of the helpful assistance and kindly consideration in the work that has been done. Courtesy and encouragement have marked our association and stirred my activities.

"It may not be out of place to mention the valuable work done by every member of the board in guarding the people's money and performing the varied duties imposed upon the board, and the past year has had a greater variety of problems to meet and solve than ever before.

"Especially should I note the work of the chairman, who has given largely at practically no pay much of his time and legal advice.

"I am, gentlemen,

"Very respectfully,

"WASHINGTON CATLETT,

"County Superintendent.

"New Hanover County, N. C."

REMARKABLE RECORD.

Flesh-Forming Food That Succeeds Nearly Every Time.

A man or woman might as well starve outright as to take food into the stomach and not have it assimilated, yet in Wilmington as well as in every other town and city, there are many people who are thin, pale and seem underfed, simply because the food they eat is not assimilated, and fails to make good blood and firm flesh.

Samose, the wonderful flesh-forming food, taken before or after meals, mingles with the food, so that it is assimilated by the system and makes rich blood and pleasing plumpness. No one can use it for a week or ten days without a noticeable gain in weight. Statistics show that out of every one hundred people who commence the use of Samose, 98 will find a full gain in weight and restoration of health and strength.

Anyone who is thin, weak, scrawny and emaciated can put 50c on deposit with the J. Hicks Bunting Drug Co., and take home a box of Samose. If the treatment does not give a noticeable increase in good, firm flesh and restore strength and health, they will return the money without any questions.

W. H. HODGES KILLS WIFE

Returned Home at Leland Tuesday Night and Found Another Man. Chased Him and Accidentally Shot Wife.

Returning to his home near Leland Tuesday night W. H. Hodges, a well known carpenter who works in Wilmington, found another man at his home and after chasing him around the house he accidentally stumbled upon the steps leading to the front door, causing a gun which he carried to go off and wounding his wife so that she died in about an hour, according to his testimony before the coroner's inquest yesterday afternoon.

Immediately after the death of his wife, which occurred about 12:30 o'clock yesterday morning, Hodges got in his gasoline boat and came to Wilmington and consulted L. Clayton Grant, Esq., as to what course to pursue. He was advised to notify the sheriff and coroner of Brunswick county and have an inquest.

The inquest was held yesterday afternoon at Hodges' home and after making a thorough examination and hearing the testimony of Hodges and his youngest daughter the verdict of the jury was that Mary Hodges' death was caused by the discharge of a shotgun in the hands of her husband, W. H. Hodges. In the absence of the coroner, Mr. C. W. Harvell, of Leland, acted as coroner, and after the return of the verdict he issued a warrant before Magistrate W. G. Adams, and Hodges was arrested by Deputy Sheriff H. A. Williams. This morning he will be required to give a justified bond for $1,000 which he says he will be able to do.

The following gentlemen from Leland served on the jury yesterday: Messrs. H. A. and H. B. Williams, E. D. Millican, W. A. Williams, John MacRae and F. W. Edwards. The only testimony heard was that of Hodges and his 15-year-old daughter, Madge.

Hodges testified that he returned home in a gasoline boat about 10:30 Tuesday night. He had his shotgun with him and he came up in the rear of his home when he saw a man in the room. He then went around to the front of the house, when the man in the house evidently having heard his steps, started out the front door. Seeing Hodges he turned and was followed by Hodges out the back door. Hodges stated that he then went back through the house to the front with the intention of heading him off.

In the meantime his wife had gone out into the front yard and Hodges stated that as he ran down the steps of the front door he stumbled and fell headlong, causing the gun, which had been cocked, to be discharged and the whole load passing through the right leg of his wife. He tried to 'phone for a physician at Wilmington and Southport, but was unable to get in touch with one.

His testimony before the coroner was corroborated by his daughter, Madge, who stated that she was upstairs when she heard the running through the house and just as she reached the foot of the stairs she saw her father fall.

After the death of his wife, he left her with his daughter and got in his boat and came to Wilmington, getting here early in the morning. He talked with several gentlemen about the sad tragedy which had a few hours before been enacted. He was extremely nervous and appeared to be much concerned about his two daughters, one of whom had been in Wilmington for several days, and both of whom, it is said, his wife had caused to live an immoral life.

Hodges is well known in Wilmington, having made his home here until about five years ago when he moved his family to a point about a mile from Leland on the banks of Sturgeon creek, in order that they might have more seclusion. He learned his trade as carpenter in the Atlantic Coast Line shops, and later worked for the Tidewater Power Company. For the last few months he has worked around in different parts of the city. He has always been an industrious man, it seems, but his wife had caused him much trouble, it is said, by reason of her conduct.

According to a statement made by Hodges yesterday the body of his wife will be brought to Wilmington today and interment made at Bellevue cemetery.

MADE LARGE INCREASE.

Commerce for Wilmington Port for Past Fiscal Year.

The report of Maj. H. W. Stickle, United States engineer in charge in this district, which he will soon submit to the War Department, will show a splendid increase in the amount of commerce done by the port of Wilmington during the fiscal year ending June 30th, 1913. The report will show that the total gain for the year was $1,853,836 over that of the previous year. The total amount of exports and imports was $60,863,344 for the entire year. Some of the most interesting items in the report are set forth in the following:

Exports—Cotton, 464,000 bales, valued at $29,068,750; crossties, 61,809, valued at $246,141; Fish oil, 730 barrels, valued at $13,940; Lumber, veneer, 8,766,297 feet, valued at $222,880; Lumber, plain, 24,623,974 feet, valued at $492,480; turpentine, spirits, 5,020 barrels, valued at $203,400; Tar, 2,543 barrels, valued at $203,400.

Recapitulation, Exports, Foreign and Coastwise—307,916 tons, valued at $38,838,773; exports, internal, 115,477 tons, valued at $4,431,737. Total imports, Foreign and Coastwise, 387,129 tons, valued at $14,906,427. Total imports, internal, 261,683 tons, valued at $2,686,407. Grand total exports and imports, 1,072,205 tons, valued at $60,863,344.

This shows a gain over business of the preceding year of 8,297 tons, and of $1,853,836.

Sent to the Recorder.

Ed Smith, a young white man, was tried before Justice Harriss yesterday afternoon on the charge of larceny by trick. Elbert Tatum, also white, alleged that he gave Smith $5 with which to buy whiskey and that he never received money nor whiskey. After waiting what he considered a reasonable length of time, he had a warrant issued. Probable cause was found and Smith was sent over to the Recorder for trial this morning. In default of bond he was placed in jail.

We note in Col. Bingham's catalogue that only two details of Commandants of Cadets from U. S. Army are allowed to North Carolina, one of which has been assigned by the War Department to the A. & M. College, West Raleigh, and the other to Bingham, Asheville.

Bingham's latest improvement is the Lake for swimming, and the Commandant, 1st Lieutenant, C. R. Abraham, 27th Infantry, is to organize a Cadet Band in September.

The Bingham Summer Camp opens July 1st. (Advertisement.)

Mid-week dance at Lumina tonight. (Advertisement.)

COUNTY BOARD OF HEALTH

Regular Monthly Meeting Held Yesterday—Decided to Prepare Friendly Suit to Determine Controversy With City.

Friendly action will be brought before Judge Geo. Rountree, at chambers, within the next few days to determine the controversy between the County Board of Health and the City Council on the question of the right of the municipal body to fix the salaries of the officials and employes of the health department. The ruling of Judge Rountree shall be final. This course was definitely decided upon at the regular monthly meeting of the County Board of Health yesterday afternoon.

Geo. L. Peschau, Esq., county solicitor, will be asked by the City Council and the Board of County Commissioners to prepare the case and present the question for the Board of Health. The city will be represented by ex-Judge E. K. Bryan, the city attorney. The Council has maintained that it has the right to say to the Board of Health what salary shall be paid to this or that official of the health department, while the Board of Health contends that the Council has no such authority, but concedes that the budget as a whole as adopted by the Board of Health may be shaved down by the Council. The question has arisen mainly in the matter of the salary of Dr. Chas. T. Nesbitt, county superintendent. The Board of Health fixed his salary at $3,000 a year. The Council said that it should not be more than $2,400 a year. Dr. Nesbitt was paid at the rate of $3,000 a year for his services in June.

Report was made by Dr. Nesbitt that the plans for the liquid chlorine apparatus to be installed on trial at the waterworks plant had been prepared and placed with the Water and Sewerage Department to be sent to the firm that is to furnish the apparatus. Two weeks later it was learned that the plans had been lost or misplaced in the office of the Water and Sewerage Department. Duplicate plans were then prepared and have been sent off. With reference to the purchase of sand for the filters, Dr. Nesbitt said that specifications were prepared by the chemist and sent to the Pittsburg Filter Company, one of the leading companies of this kind in the country. A few days later a reply came that the company did not have any sand of this kind and none was used anywhere in the country. Dr. Nesbitt said that the company afterwards retracted its statement and had written that the sand to meet the requirements of the specifications could be furnished. Two samples of sand were submitted yesterday by the superintendent of the waterworks plant, he said, but he had not had time to see if it was properly calibrated. One sample was from a Norfolk sand company. Dr. Nesbitt said that he understood that the Pittsburg company bought part of its sand from Norfolk and that if the Norfolk sand measured up to requirements then it would be cheaper for the city to buy direct from Norfolk.

Mayor Moore asked Dr. Nesbitt if he had ever examined the sand across the river, where the government is throwing it up from the river bed. Dr. Nesbitt said that he had and that it was very pretty sand, but that it was not chemically fit to be used in the filtration plant. The Council has already ordered that the sand be purchased and that the liquid chlorine apparatus be installed on trial, so there was nothing for the Board of Health to take action on yesterday.

Chairman Willard said that the delay of two weeks caused by the Water and Sewerage Department using or misplacing the plans for the liquid chlorine apparatus was a serious matter. Mayor Moore agreed with him that it was a serious matter and promised that an investigation would be made. Dr. Cranmer said that it appeared to him like carelessness.

In the discussion with reference to the controversy between the City Council and the Board of Health, Dr. Nesbitt said that he had been told by a member of Council that the question was raised as a popular political movement and would not be abandoned by the persons who started it no matter what ruling may be given by the courts.

Mayor Moore declared it the duty of Dr. Nesbitt to tell the name of the Councilman, that if any one was trying to play cheap politics it should be known.

Prof. Washington Catlett advised that the two bodies strive to get nearer together instead of farther apart and suggested that further consideration of the point brought out by Dr. Nesbitt be dropped as it would not serve any good purpose. The suggestion of Prof. Catlett prevailed.

Upon motion of Dr. Cranmer it was ordered that the sanitary police be paid off twice a month, as it is more convenient for the men.

Mayor Moore brought up the matter of appraising the value of the sanitary equipment, office furniture, etc., taken over by the health department in order that one-fifth of the amount might be assessed against the county. Chairman Willard said it was a matter for the Board of Commissioners to handle and that he would bring it up at the next meeting.

Chairman Willard, more in jest than anything else, asked Mayor Moore what he thought of a re-adjustment of the amounts paid to the James Walker Hospital each year, suggesting that the city and county might give support to the institution on the same basis as the health department, that is one-fifth for the county and four-fifths for the city. The county has been paying $9,000 a year and the city $6,000. Mayor Moore said that the appropriation made to the hospital was independent of the Board of Health and that that body had nothing to do with the amounts contributed to the institution.

Mayor Moore reported that any number of complaints were received at his office every day of failure to remove carrion from the streets. Dr. Nesbitt said that one wagon was kept busy all the time and could not get over any more territory than is now covered. He suggested that the only remedy lies in putting on another wagon. The Mayor also told of complaints received at his office and later turned over to the chief of the sanitary police with regard to fish scraps behind a restaurant on Front street, near the rear of the Murchison National Bank building.

Dr. Nesbitt said that so far as complaints were concerned that the health department received any number of them for failure of the city to remove trash from the streets. As he saw the matter there is ample room for consideration on both sides, because both the city street cleaning department and the health department are running on restricted equipment.

Dr. Cranmer said that he did not think a dead chicken or dog lying on the streets for a few hours was any worse, not as bad, in fact, as an old tomato can half full of water, where mosquitoes breed, or surface closets.

Mayor Moore asked why sanitary closets were not installed.

"We have made you chairman of that committee," said Dr. Nesbitt, "and you will be expected to see that the law is enforced."

"I ask to be released from that committee," said Mayor Moore. "For reasons of my own, I desire to be released of this committee assignment."

Passing over the request of Mayor Moore, Chairman Willard called for the monthly reports of the officers of the health department. In June there were 53 births, 20 white and 33 colored; 52 deaths, 26 white and 26 colored. Deaths under five years, 15; seven white and eight colored. Non-resident deaths, 4; white, 3; colored, 1. Temporary resident death rate per thousand, white, 17.7; black, 27.8; total, 19.02.

A letter was received from Dr. Chas. W. Stiles, surgeon in charge of the Marine Hospital, relative to the inspection that is being made of school children. Dr. Stiles asked if the health department is in position to give surgical treatment of tonsilar cases that need attention in the event that their parents state that they cannot afford to take the children to a specialist. Members of the board seemed to think that the local specialists would be glad to give free their services in such cases. The question then was to secure the consent of the board of managers of the James Walker Memorial Hospital to allow specialists to attend such charity patients, which is now forbidden by the rules of the institution, as this work is done by the hospital surgeons. Members of the board were of the opinion that the board of managers would be willing to lend every aid possible to the work that has been undertaken. Chairman Willard was named as a committee to take the matter up with the board of managers.

The following is the report of Dr. John Thames, assistant superintendent of health:

County Institutions.

"Jail:—An old brick building which was constructed but with little idea to sanitation; poorly lighted and improperly ventilated; no screens; heated by furnace; connected with the public sewer; city water used. The prison is divided into two parts. The main part contains 16,128 cubic feet air space; the private part contains 3,920 cubic feet of air space. Number prisoners confined in the main part at present, 21. Equals 768 cubic feet for each prisoner. Private part has eight prisoners, equals 490 cubic feet for each prisoner. The prisoners' clothing and bedding contain some vermin. The following efforts are being made to eradicate the vermin: Prisoners are stripped upon entering the jail, required to take a bath in a bichloride of mercury solution one to two thousand, their heads treated with Larkspur and their clothing sprayed with an insecticide. Prisoners are required to take weekly baths; the cells are cleaned once a week; blankets and bedclothing washed every two weeks. The food furnished is of a good quality and in sufficient quantity.

"The jailer had been in the habit of keeping a stock of medicine on hand and administering it to the prisoners when they complained. This has been stopped and no medicine given a prisoner except after an individual examination and as prescribed by the attending physician.

"County Home and County Farm:—The County Home is a large, well-equipped building, well lighted and ventilated; contains separate apartments for white and colored, male and female and a separate building for the demented; good size kitchen and store room separate from the building. Main building also contains living rooms and office for the superintendent and a chapel for devotional services. Water supplied by deep pump of known purity. Inmates are fed and clothed in a proper manner. There are at present in the home: whites, male 1; female 2; Negroes, male 8; female 9; total 20.

"County Farm Prison:—This building is divided into two apartments containing 3,600 cubic feet of air space each; open fires; no screens; surface closets; like ones used for County Home. These closets are cleaned at irregular intervals, contents buried. Number of prisoners at present—boys under twenty, 10; women, 13; total, 23. Prisoners on entering are treated in the same manner as when entering the jail.

"Convict Camp, East Wilmington:—This is known as the home camp and in addition to a prison it has to be used as a hospital for those who are not able to work and not sick enough to be sent to the hospital and for cripples and convalescents after returning from hospital. These disabled prisoners have to be kept in the same room with the well or working ones. Building has one apartment for whites and one for colored, and a dining room and kitchen. The white department contains 2,600 cubic feet of

SOCIAL & PERSONAL

Miss Alleen Lowry, of Morven, N. C., is visiting her uncle, Mr. J. D. Lowry, in this city.

* * *

Miss Ethel Messick, of Northwest, has returned home after spending a few days in the city with friends.

* * *

Misses Ruby and Hazel Powell, of Richmond, Va., are visiting Mrs. H. E. Longley, at her home in East Wilmington.

* * *

Miss Pattie Williams, of Burgaw, returned home Monday evening after a pleasant visit to Mrs. Hanson W. Collins.

* * *

Yesterday's Charlotte Observer: "Miss Neena Woods, of Wilmington, is visiting her cousin, Miss Bonte Wiley, for a few days."

* * *

The many friends of Miss Adelaide Meares will regret to learn that she is ill of typhoid fever, and was taken to the James Walker Memorial Hospital yesterday.

* * *

Mrs. Preston Cumming and daughter, Anne Bacot, returned last night from a two-month visit to Mrs. Cumming's daughter, Mrs. R .A. Nelson, of Williamson, W. Va.

* * *

Mrs. C. H. Bornemann left Monday morning for Charleston, S. C., where she will spend some time on a visit to friends and relatives at her former home in Charleston, S. C.

* * *

It will be learned with deep regret by her many friends that Miss Eliza Davis, eldest daughter of Mr. and Mrs. Junius Davis, is critically ill of typhoid fever at the home of her parents on Greenville Sound.

* * *

Mrs. J. A. Farley has returned from Whiteville, where she was called on account of the serious illness of her mother, Mrs. D. P. High, who lived only a few days after she arrived. Mrs. Farley's sister returned with her to spend some time as her guest at No. 611 Grace street.

* * *

Kinston, N. C., July 8.—Announcement has been made of the marriage in Newark, N. J., of Miss Mabel Marquette, formerly a popular Kinston lady, to George S. Mackay, of that place. The wedding was at the home of the bride's sister, Mrs. F. S. Mitchell, and Rev. E. R. Bell, of Tremont Methodist church, New York, officiated. The bride was attended by her sister, Miss Pearl Marquette. After their return from a wedding trip the couple will reside in Kearny, N. J.

PERSONAL PARAGRAPHS.

—Mr. N. P. Edge, of Rocky Mount, was in the city yesterday.

—Mr. S. L. Richardson, of Godwin, was in the city yesterday.

—Mr. L. F. Watford, of Lamar, S. C., was in the city yesterday.

—Mr. M. H. Schulken, of Whiteville, was a guest at The Orton last night.

—Mr. J. B. Haman, of Southport, was a guest at The Orton yesterday.

—Mr. M. D. Pollock, of Kinston, was here yesterday, a guest at The Orton.

—Mr. O. P. Middleton, of Warsaw, was registered at The Orton yesterday.

—Messrs. C. J. Gasque, of Florence, S. C., and E. P. Buchan, of Loris, S. C., were guests at The Orton yesterday.

—Capt. W. C. Manson, of Southport, who has been located at Havana, Cuba, for some months, was in the city yesterday, returning home on a leave of absence.

—Mr. and Mrs. H. H. Brimley and Masters Robert and Arthur Brimley, of Raleigh, were here last night, enroute to Lake Waccamaw, where they will spend two weeks. They were guests at The Orton.

—Col. George L. Morton, who spent yesterday in the city on business connected with the establishment of the new distributing depot for the Galena Signal Oil Co., left yesterday afternoon for his home in Atlanta, Ga.

—Mr. E. J. Putnam, Southern sales agent of the Trussed Steel Concrete Co., with headquarters in Atlanta, Ga., leaves today after attending the annual meeting of the Master Builders' Association of the Carolinas at Wrightsville Beach and calling upon his trade in this city.

SPEAKING OF DOGS

Wilmington Gentleman Thinks They Should be Muzzled

"Did you ever see the like of dogs in all your life?" queried a Wilmington gentleman last night as he stood at the corner of Front and Princess streets waiting for a car. "Wilmington seems to be overstocked with them," he continued, "and most of them seem to have taken up their abode on the streets. I can't walk four blocks at night without stirring up a half dozen or more sleeping dogs who have sought the middle of the streets for repose.

"I suppose most of them are harmless, and so far I have had no trouble with them, but I confess to a feeling of uneasiness especially on dark nights when I have to trudge home surrounded by a bunch of howling, barking dogs. I think that some provision should be made either for keeping them off of the streets or else requiring them to be muzzled so that pedestrians may have some assurance of safety. Many of the more progressive cities now require all dogs to be muzzled, and I think that it is now time for Wilmington to take such a step.

"It is true that many of us would prefer to carry a gun and when we are pestered with the screeching mob of canines open fire on them. This would afford considerable more satisfaction than knowing that the dog is effectually muzzled and can't bite for then we would be able to rid ourselves of the noise also. However, in all seriousness I should like to see an ordinance passed by our City Council dogs to roam the streets of our city." dogs to roam th estreets of our city."

Banquet Postponed

Owing to the critical illness of Miss Eliza Davis, daughter of Junius Davis, Esq., a prominent member of the local bar, the banquet that was to have been given at the Oceanic Hotel, Wrightsville Beach, last night, by the Wilmington bar in honor of Judge George Rountree, has been postponed to a date to be announced later.

CAPTAIN BLONDELL.

In his famous water exhibition including fancy and trick swimming, marine fireworks, reproduction of ships on fire, etc., at the Beach, Wednesday, Thursday and Friday, July 16th, 17th and 18th. Night exhibition only. Exhibition takes place in the sound at Lumina wharf. 2t

LOCAL DOTS.

—City Council will meet at 9:15 o'clock this morning in regular weekly session.

—The regular monthly meeting of the Chamber of Commerce will be held tomorrow afternoon.

—The A. & Y. train, due here at 8:15 P. M., was delayed last night by a burning trestle somewhere along the line, just where could not be learned, and did not arrive until 11:20 o'clock.

—The Star is requested to make the following announcement: "The pulpit of Atkinson Baptist church will welcome the 'young minister,' S. O. Corbett, at 8 o'clock Sunday night, July 13th. Be sure and come."

—It was reported that a young man, whose name was not learned, had a narrow escape from drowning in Greenfield Lake yesterday afternoon, being rescued by Mr. W. B. Brice, one of the owners of the lake property, and others.

—On account of Mr. C. L. Whitehead having to be out of the city this week the case against him for running an automobile on the Wrightsville turnpike at a greater speed than the law allows has been held open until his return when he will have a hearing before Justice Harriss.

—Ed Suggs and Thomas Maske Jones, both colored, were before Justice Harriss yesterday on the charge of carrying concealed weapons. Probable cause was found in the case against Suggs and it was sent to the Recorder for trial today. The case against Jones was dismissed.

—Mr. Edwin B. Hatch, who was operated on for appendicitis at Harper's Sanitarium ten days ago, was able to leave the hospital yesterday. He is fast regaining his strength, and will soon report for duty at the establishment of Hyman Supply Co., with which he is connected as salesman.

—The Wilmington Grain & Produce Company is the name of a new Wilmington enterprise, located at No 119 South Front street, which is backed by three well-known young men, Messrs. Waddell Watters, E. F. Peschau and J. H. Durham, Jr. The company will do a general grain business.

—Mr. James Tripp, of Pollicksville, who spent Sunday at Wrightsville Beach, had a narrow escape from drowning Sunday afternoon because of going too far out in the surf. Being unused to sea swimming he was soon exhausted, and was rescued with difficulty. He was able to return to his home Sunday night.

SCHOOL COMMITTEE WOMEN.

Four Women Elected in Guilford County Yesterday.

(Special Star Correspondence.)

Greensboro, N. C., July 8.—The Guilford County Board of Education in appointing school committeemen did not take so very enthusiastically to the new provision of the Legislature that permits women to be made members of school committees, but went far enough to give it a trial.

Four women were appointed in various parts of the county, as follows: Mrs. W. S. Dick, McLeansville High School; Mrs. Laura Davidson, Stokesdale High School; Mrs. R. O. Gamble, Summerfield High School; Mrs. W. L. Gibbons, Colfax school.

All of these are very intelligent and capable women and with one exception are college graduates. The whole number of committeemen was 167, and the women got a fraction over 2 per cent of the number. Many Guilford people were very active in getting the law passed and it was expected that there would be greater demand among the women for the places, but in no instance did the women take any active interest in the appointments.

Man and Girl Saved

Friends in Wilmington of Hon. Fred E. Wheaton, of Minneapolis, Minn., have read with a great deal of interest an account in the Minneapolis Morning Tribune of date of July 4th, of a thrilling rescue in which he played an important part. Miss Edith Thompson, 16 years old, and her grandfather, Mr. F. B. Clark, of Minneapolis, were rowing in the Lake of the Isles when their boat tipped over in a sudden squall. They had gone down three times and were frantically clinging to the overturned and rolling canoe, when Mr. Wheaton and his 19-year-old son, Grier, saw their plight from their front porch and hurried to them. Mr. Wheaton and son came to their rescue just in time to save them. Mr. Wheaton is Supreme Keeper of Records and Seal of the Knights of Pythias, and has visited this State several times. He is a close personal friend of Capt. Thos. D. Meares, of this city, who is Supreme Master of Exchequer in the same order.

Fined for Speeding

Fred Baker, colored, chauffeur for Hon. John D. Bellamy, was before Justice Harriss yesterday, charged with running Mr. Bellamy's automobile on the Wrightsville turnpike roa' at a greater speed than the law allows. He was found guilty and fined $10 and the costs. The State law allows automobiles to run at a speed of 25 miles an hour on a straight road but requires them to slow down to 12 miles an hour when going around curves. It was for violating the latter clause of the law that Baker was arrested.

DR. NESBITT SAYS WORD

Praise for The Orton Confectionery Ice Cream

There is more room for adulteration in the manufacture of ice cream than possibly in any other commodity on the market. So-called "ice cream" can be made without any of the ingredients that it is supposed to contain; imitation cream, imitation sugar, imitation flavoring extracts, and imitation this, that and the other thing go into the ordinary grades of ice cream.

And the consumer pays his money and never knows the difference.

Read the following from the superintendent of the Board of Health:

"Wilmington, N. C., July 3, 1913.

"Mr. Eustace Dinos, City.

"Dear Sir: Analysis of your ice cream shows that it contains 12.8 per cent fats and that in all other particulars it conforms to the Pure Food Law of the State of North Carolina. Our analysis disclosed no evidence whatever of any form of adulteration or inpurity.

"I would respectfully suggest that you submit a sample of your cream from which you make ice cream for examination as to the amount of fat it contains as this seems to be the only deficiency in your product. The State law requires 14 per cent of butter fat in ice cream.

"I wish to thank you personally for the effort you are obviously making to furnish our citizens with honestly made and marketed ice cream.

"Very sincerely yours,

"CHAS. T. NESBITT,

"Supt. of Health."

We claim that our ice cream is the purest, richest and most wholesome ice cream made in Wilmington.

ORTON CONFECTIONERY.

Wrightsville Beach

The regular mid-week dance will be given tonight at Lumina, Wrightsville Beach.

Mr. R. M. Clayton, of Atlanta, Ga., arrived yesterday to spend a few days at the Oceanic Hotel.

Among the arrivals yesterday at the Hanover Inn were E. L. Smith, Laurinburg; Theo W. Starbuck, Boston; Mrs. S. S. Schafer, Timmonsville, S. C.; W. E. Crozier, Philadelphia, Pa.

The Carolina-Florida Fish Company has placed a large pound net off Moore's Inlet which will enable the hotels and boarding houses to have an abundant supply of fish for guests. A large haul of fish was gotten yesterday, many of the catch being blue fish and mackerel.

Among the guests registered at the Seashore Hotel yesterday were J. E. Hudson, Kinston; R. J. Durst, Akron, Ohio; R. F. Boykin, Wilson; W. B. Fort, Asheville; V. A. Batchellor, Atlanta, Ga.; Mrs. W. S. Montgomery, Misses Kate Lois and Lucile Montgomery and Master Walter Montgomery, of Atlanta, Ga.; J. C. Clements, Darlington, S. C.

One of the new popular features at the Oceanic Hotel is the morning dance at the hotel pavilion which was inaugurated yesterday morning. The hotel orchestra will furnish the music for the dances. Yesterday the one-stop and others of the newer dances were danced and proved to be of great interest to many of the guests.

Capt. L. D. Blondell, who has been engaged by the Tidewater Power Company to give three exhibitions at Lumina next week, stated last night that he would have the miniature Titanic completed by Friday noon, when it will be exhibited at Front and Princess streets. The boat will be 18 1-2 feet long over all. Captain Blondell invites all ladies with kodaks to be present and get snap shots of the vessel. The miniature Titanic will be used on the third night of the exhibitions at Lumina next week.

AS EDITOR FAIN SEES IT

Thinks There Are Enough Sober People to Keep Beach Alive

The following editorial comments from the Rock Hill, S. C., Herald with reference to Wrightsville Beach, will be of interest:

"The Greensboro Record thinks a sober crowd at Wrightsville a curiosity. If that is the case the average North Carolinian has not been a patron of the resort, because the average North Carolinian is a sober and serious-minded person.

"The hotels at Wrightsville Beach are threatening to close on account of lack of patronage, caused, the managers claim, by the fact that the beach is absolutely 'dry' this season. There is not even beer to drink, and the resort is so nearly deserted that it is not profitable to keep the hotels open. This is a different story to the one that has so often been recited, to the effect that the prohibition law is not enforced in North Carolina.

"There is nothing to drink at Wrightsville Beach, and the hotels are about to close for lack of business. Those who conduct them should get busy and advertise Wrightsville as a great prohibition Summer resort. There are about as many people nowadays who do not drink at Summer resorts as there are who do. The patronage of the prohibitionists might be turned to the North Carolina resort by enough of the right kind of publicity."

CHARLOTTE EXCURSION TODAY

Tenth Avenue Sunday School Pleasure Trip to the Seashore

The Tenth Avenue Sunday school of Charlotte will run an excursion today to Wrightsville Beach. The special train will leave Charlotte this morning at 8:30 and will arrive in Wilmington at 2:30 this afternoon. Returning it will leave Wilmington on Friday, July 11th, at 9:30 A. M., thus giving nearly two days and nights on the beach for bathing, boating, fishing and other amusements.

The party will be made up of young, middle-aged and old people who are coming in search of pleasure, enjoyment and recreation, and their aim is not only to have a good time themselves but to add to the pleasure of others. While at the beach the Seashore Hotel will be headquarters for the excursionists.

The special train will take on passengers between Charlotte and Wadesboro, and it is expected that there will be many people from these intervening points. Tomorrow an excursion on the steamer Wilmington will be given down the Cape Fear river and ten miles out to sea, and there will no doubt be a large number who will take advantage of this delightful trip.

The Recorder's Court.

There was little doing in Recorder's court yesterday. Johnnie Wheeler and James Douglas, both colored, were in court charged with carrying concealed weapons, and firing them within the city limits. The case against Douglas was nol prossed while Wheeler got off with the costs. The case against Grant Brown, colored, charged with vagrancy, was dismissed. The case against Gus Williams, also colored, was continued until today as the defendant appeared to be sick. Link Berry, colored, who is charged with housebreaking, will have a hearing today. There are also quite a number of other cases on the docket for today. The case against Henry Woebse, charged with violating the prohibition law, was continued by consent until July 12th.

$7,000.00 worth of ladies' and misses' Summer hats will be sold for less than half their value. Gaylord-Platt Co.'s One-Article Sale. (Advertisement.)

A SPECIAL "DON'T"

DON'T use cough medicine that contains opium or morphine. It may stifle the cough, but it will constipate the bowels, keep the poison in the system, and NOT cure the cold. Take Foley's Honey and Tar Compound. It contains no opiates, is soothing and healing, mildly laxative. It is a safe and reliable curative medicine. —R. R. Bellamy.

SEALED BIDS

By order of the Board of Education, the property known as the Williston School, corner Seventh and Ann streets, is offered for sale.

Sealed bids should be filed with the Supt. of Public Instruction on or before August 1st, 1913. The board reserves the right to reject any or all bids. Bids are based on condition of delivery of property to purchaser January 1st, 1914. W. CATLETT,

Supt. Public Instruction.

ODOR-O-NO

Makes Dress Shields Absolutely Unnecessary

For the dainty woman—for the woman whose clothes have been faded and spoiled—for all women who suffer from excessive perspiration

ODOR-O-NO

THE ANTI-DRESS SHIELD TOILET WATER

Keeps the armpits fresh, dry and natural. Eliminates excessive perspiration, and its odor from any part of the body. Harmless and guaranteed. Applied externally. 25c and 50c sizes.

Get a bottle ***today*** at any "live" dealer in toilet articles. If ***your*** particular dealer hasn't it — order direct, giving his name to the

OCEANIC HOTEL

CHAS. E. HOOPER MANAGER

WRIGHTSVILLE BEACH, N. C.

This elegant hotel of 300 rooms, many with private bath, with its broad porches and pavilion facing the ocean is now open for the season of 1913. No flies, no mosquitoes, Artesian Water, Electric Cars to the door connecting with Union Station at Wilmington.

For booklet and terms address,

C. E. HOOPER, Mgr.

QUALITY

of material is an important essential in the building of a house or your body. It is equally essential in the construction of teeth that will be strong and able to resist the severe storms of decay that will sweep over them. Teeth that are built of flimsy material will easily yield to its enemies. The little extra effort you make to have them built of the best material, will be worth more than money to you in later years. A reliable dentist will give you the best advice as to the kind of food that will build stronger teeth. One reason patients show the appreciation of my advice—they are glad to return when an operation is needed and have their teeth trusted to my care.

DR. J. W. POWELL, Dentist

Garrell Building.

NOTICE OF SALE.

Pursuant to an order of the Superior Court for New Hanover County, entered at the May Term, 1913, in a case therein pending, wherein Theodore M. Byers, et al., are plaintiffs, and the Scott's Hill Land & Lumber Company is defendant, the undersigned commissioners will, on the 10th day of July, 1913, at 12 o'clock M. at the place of business of the Scott's Hill Land & Lumber Company, Scott's Hill, N. C., sell at public auction, to the highest bidder, for cash, all the following real and personal property, belonging to the said Scott's Hill Land & Lumber Company, and situate in Pender and New Hanover Counties, to-wit;

REAL PROPERTY.

FIRST TRACT: Beginning at a cypress in Old House Branch, and running thence South 2 deg. East, 12 poles, to a stake; thence South 88¼ deg. West, 61 poles, to stake; thence South 237 poles to a lightwood stump; thence North 89 deg. West, 145 poles, to a pine; thence North 337 poles, to a spruce pine, at the run of Old House Branch; thence with the meanders of said branch, to the beginning; containing, by estimation, 300 acres, same being on the North side of the railroad, about two miles from the Scott's Hill Depot.

SECOND TRACT: Beginning at the Southeast corner of the church lot of the M. E. Church, South, at Scott's Hill, in the center of the side track of the Wilmington & Newbern Railroad, and running thence with the course of the side track in a Northeast direction, 172 feet to a stake, 7 feet at right angles from the center of said side track to the West side of the same, and running thence North 59 deg. West, 823 feet, to a stake in a fence line; thence South 33 deg. 15 min. West, 425 feet, to a sycamore tree in the edge of an old grave yard; thence South 68 deg. 45 min. East, 371 feet, to a stake in the Western corner of the Methodist Church lot; thence North 35 deg. 30 min. East, 242 feet, to a stake in the Northern corner of the Methodist Church lot; thence South 53 deg. 15 min. East, 447 feet, to the point of beginning; containing 4.9 acres; and being the tract of land upon which the mill and plant of the Scott's Hill Land & Lumber Company is located.

THIRD TRACT: All the standing timber measuring 12 inches in diameter, 18 inches from the ground, upon the following described tract of land, lying and being in Topsail Township, Pender County, and bounded as follows: On the North by lands of G. W. Huggins; on the East by lands of Jasper Sidbury; on the South and West by lands of W. H. Hill; containing 400 acres, more or less. It is the condition of this deed that the timber shall be removed from the aforementioned land within eight years from the 9th day of March, 1911. The party of the first part hereby conveys to the party of the second part all the rights and privileges of ingress, egress and regress named in the deed from J. T. Foy and wife.

FOURTH TRACT: 1st. Being a certain lot or parcel of land allotted to F. M. Foy in the division of the estate of J. M. Foy, deceased, and described as follows, to-wit: Situated on the East side of Island Creek and South side of Wanny's Branch, beginning at a sweet gum tree on the spot where formerly stood a stooping chinquepin; running thence North 85 East 77 poles, to a stake; thence South 36 poles, to a stake, Henry S. Foy's Northwest corner; thence East with said H. S. Foy's line, 252 poles, to a stake; thence North 58 East, 110 poles, to a gum tree on the run of Wanny's Branch; thence with the run of said branch, along the various courses thereof, about 286 poles, to a maple, the corner of the Sholar tract; thence with the Sholar line, South 44 West, 332 poles, to the beginning; containing by estimation, 337½ acres, more or less.

2nd. Situated on the East side of Island Creek, and on the North side of Wanny's Branch, beginning at a stake, Henry S. Foy's Northwest corner, referred to in the above tract; running thence South 304 poles to a maple on the North side of Mosquito Branch; thence North 14 deg. East, 84 poles, to a stake; thence East, 134 poles, to a pine; thence with the courses of the bay, first North 63 poles; thence North 82 deg. 50 poles; thence North 50 deg. East 120 poles, to a pine in the line of the Futch tract; thence with said Futch line, North 33 deg. West, 88 poles, to the corner of the Futch tract; and thence West 252 poles to the beginning; containing 332 acres, more or less.

3rd. Adjoining the above two tracts and lying on both sides of Wanny's Branch beginning at a stake at the edge of a bay, adjoining R. K. Bryan's land, being the beginning corner of the Futch tract, near Richard Earle's plantation; running thence North 33 deg. West, 204 poles to a pine stump in Jeremiah Casteen's field; thence South 58 deg. West, 180 poles, across Wanny's Branch to a stake, corner of the two above described tracts; thence South 33 deg. East, along a line of the second tract described above, 100 poles, to a stake in the edge of a bay; thence South 18 deg. West, 60 poles, to a pine; thence South 58 deg. East, 60 poles, to a stake; thence North 58 deg. East, 263 poles, to R. K. Bryan's line, to the beginning; containing 229½ acres, more or less. 20 min. West, 96 poles

Excepting from the last mentioned tract, a certain parcel of land conveyed by J. W. Foy to Oscar P. Batton, by deed dated January —, 1887, and recorded in New Hanover County, in Book Q, page 352, provided the said Batton has legal title thereto, but the said party of this deed conveys all interest he has in said exception, which purports to contain 22 acres.

4th. The following land in New Hanover County, North Carolina, adjoining the lands of the Nixon heirs and others, bounded and described as follows, to-wit: In Harnett Township, situated on Mosquito Island, beginning at a pine near the head of Island Creek, and running down said creek to a stone, N. M. Nixon's corner; thence with his line East 154 poles to a stake, his corner at Mosquito Branch; thence up said branch as it meanders to a pine at Briery Glade; thence the various courses of said glade to Cross Branch; thence down the run of said branch, its various courses, to the first station; containing 350 acres, more or less.

The last four tracts lying in New Hanover and Pender Counties, and conveyed by George M. Wiley to W. H. Hill, as Recorded in Book 53, page 430, Records of New Hanover County, and in Book 54, page 379, Records of Pender County, and sold by W. H. Hill to said Scott's Hill Land & Lumber Company.

FIFTH TRACT: 1st. Situated in Topsail Township, adjoining the lands of the Brown heirs, beginning at a spruce pine on the North side of Trumpeter Swamp, near the mouth of Maul's Branch, and running thence North 20 deg. West, 176 poles, to a stake; thence North 38 deg. East, 16 poles to a pine, near a bay; thence along the bay North 5 deg. East 40 poles to a pine on the bay; thence with said bay North 85 deg. East, 32 poles, to a pine; thence South 57 deg. East, 20 poles to a stump; thence East 40 poles to a pine; thence North 21 deg. West, with the bay, 40 poles, to a pine on said bay; thence with said bay North 57 deg. West, 56 poles to a pine; thence North 32 deg. East, 32 poles to a pine; thence South 51 deg. East, 144 poles, to the run of Trumpeter Swamp; thence down Trumpeter Swamp to the beginning; containing 146 acres, more or less.

2nd. Beginning at a stake on the run of Trumpeter Swamp, near the mouth of Coe's Branch, and running thence South 23 deg. West, to a stake near Mush Pot Pond, Ezekiel Chadwick's corner; thence with his line South 23 deg. West, 68 poles to a stake in the first line of a 100-acre tract or survey granted to M. J. Hall; thence with said line South 51 deg. East, 14 poles to a stake at the run of Blossom Branch, the beginning corner of Hall patent; thence down Blossom Branch to a stake, J. Garrison's corner, at the South edge of Blossom Branch; thence with Garrison's line South 27 deg. East, 110 poles to a pine near the Wolf Pond, James W. Walton's corner, the beginning corner of Garrison's old survey; thence with the line of said survey South 78 deg. East, 71 poles to a pine near Blossom Branch; thence South 12 deg. East, 48 poles to a stake; thence South 80 deg. East 21 poles to a spruce pine head fork of the bay of Blossom's Branch; thence North 20 deg. East, 10 poles to a stake; thence with the edge of Blossom Bay North 51 deg. East, 71 poles to a stake at the edge of Blossom Bay, the fourth corner of patent granted to W. C. Murphey, for 240 acres; thence with the line of said grant as follows: South 54 deg. East, 100 poles to a pine; thence South 10 deg. West, 68 poles to a pine at the edge of Carney Bay, at Merrick's Avenue, leading from the Savannah to Rocky Point; thence up the edge of Carney Bay South 72 deg. East, 50 poles to a stake by said bay; thence North 80 deg. East, 128 poles to a pine at the bay of Coe's Branch; thence North 80 poles to the run of Coe's Branch; thence down the run of Coe's Branch, to the run of Trumpeter Swamp, to the beginning; containing, by estimation, 750 acres, more or less.

3rd. Beginning at an oak at John Avant's corner; thence North 53 deg. East, 150 poles to a pine; thence North 2 deg. East, 218 poles, to a pine on Nicholn' line; thence North 55 deg. West, 80 poles, to a pine; thence South 246 poles to Walker's corner; thence South 80 deg. West, 216 poles to a pine on Wanny's Branch; thence with said branch to the beginning; saving and excepting more or less, 25 acres around and containing the house in which Jeremiah Casteen formerly lived.

Also another tract or parcel of land adjoining the lands of Charles B. Futch and the lands belonging to the estate of Lewis Loftin, deceased, and the lands of the estate of Benjamin Best, the boundaries of which will more fully appear in a patent by Reuben Everett for said land, the whole tract containing 209 acres, more or less.

4th. The following land in Pender County, State of North Carolina, adjoining the lands of Watkins and others, bounded and described as follows, to-wit: In Topsail Township, beginning on the East end of Jordan's Ridge, running North 48 deg. West, 216 poles; thence North 43 deg. East, 15 poles; thence North 61 deg. East, 48 poles; North 17 deg. East, 50 poles; thence North 17 deg. East, 50 poles; thence North 7 deg. West, 108 poles; thence North 75 deg. West, 27 poles, to Betsey's Branch; thence up Betsey's Branch North 75 deg. East, 72 poles; thence North 2 deg. East, 100 poles to Catskin Branch; thence up Catskin Branch Eastwardly 248 poles to the bay; thence with the bay to the beginning; containing 534 acres of land.

SIXTH TRACT: All of the pine timber of every description of and above the size of 12 inches in diameter at the base, when cut, now standing or growing, or which may be during the term of ten years, beginning June 3, 1902, lying, standing or growing upon the tracts of land hereinafter described, situate in Pender County, North Carolina, in Topsail Township, to-wit:

Beginning at a stake on the line of the right of way of the Wilmington & Newbern Railroad, on the West side, by two cherry trees; thence North 49 deg. 40 min. West 162 poles to a stake; thence North 64 deg. 10 min. West, 302 poles to a stake at the West edge of the public road; thence a part of the way along and with said road; North 31 deg. 40 min. West, 184 poles to Willie's Branch, to a stake in Bryan and Casteen's line; thence with said line, South 58 deg. 20 min. West, 62 poles to a stake in Thompkin's field; thence crossing Willie's Branch, South 31 deg. 40 min. East, 140 poles to a stake about —— poles West from the old cart road; thence crossing said road, North 58 deg. 20 min. East, 62 poles, to a stake in a bay about 8 poles West of the new road; thence about parallel with said road, South 31 deg. 40 min. East, 236 poles to a stake about 8 poles from said road; thence crossing the cart road South 19 deg. 20 min. West, 107 poles to a small red bay; thence South 40 deg. 40 min. East, 88 poles to a stake on Foy's line; thence North 43 deg. 20 min. East 130 poles to a stake at the new road, F. M. Foy's and Bryan's corner, near the corner of Foy's lot; thence with the Foy and Bryan links South 68 deg. 40 min. East, 75 poles and 8 links to a stake in the line of the right of way of the Wilmington & Newbern Railroad, 50 feet from the center of said road, near the Methodist Church; thence along the line of said right of way North 47¼ deg. 20 min. East, 87 poles, to the first station; containing 292 acres, more or less, saving and excepting one acre, heretofore deeded to the Methodist Church.

SEVENTH TRACT: Beginning at a stake on the West side of the Wilmington & Newbern Railroad, 50 feet from the center line of said road, being also a corner of G. W. Huggins; thence along the line of the right of way of said road, North 47 deg. 20 min. East, 95½ poles to a stake, where Bryan and McClammy cross said road; thence with said line North 51 deg. 40 min. West, 10 poles to a stake in Black Swamp, a Bryan and McClammy corner; thence with their line North 38 deg. 20 min. East, 41 poles to a stake, an old Bryan and McClammy corner; thence with their old line South 50 deg. 40 min. East, 58 poles to a stake in the field back of McClammy's house; thence with another of their lines, North 38 deg. 45 min. East, 66 poles to a stake about 2 poles from the edge of a pond beyond the road; thence with another Bryan and McClammy line North 61 deg. 40 min. West, 151¼ poles, crossing McClammy's field to a stake, a dividing corner between R. K. and N. N. Bryan; thence with their dividing line South 38 deg. 20 min. West, 79 poles to a stake in the Northwest edge of Black Swamp, a dividing line between R. K. and N. N. Bryan and Mrs. S. B. Foy; thence with R. K. Bryan and Mrs. S. B. Foy to dividing line South 51 deg. 40 min. East, 70 poles to a stake in Black Swamp; thence with their lines South 40 deg. 20 min. West, 64½ poles to a stake, the said Mrs. Foy's division corner; thence with their divison line, between R. K. and Mrs. Sallie Bryan, the same course mentioned, 48¼ poles to a stake about 100 yards beyond the Loftin Canal, their division corner; thence with their division line North 51¼ deg. West, 348 poles to a stake, 21 poles beyond Bryan Avenue road, their division corner; thence with their division line North 51 deg. 40 min. West, 98 poles to a stake; thence with the old Bryan and McClammy line South 58 deg. 20 min. West, 96 poles to a stake in said line, a division corner of R. K. and Miss Mary Bryan; thence with their dividing line South 31 deg. 41 min. East, 184 poles to a stake just at the West edge of the new road; thence crossing said road South 64 deg. 10 min. East, 302 poles to a stake in a small field, another division corner between R. K. and Miss Mary Bryan; thence with their division line South 49 deg. 40 min. East, 102 poles to a stake by the right of way of the aforesaid railroad; thence with the said right of way of the said railroad to the beginning; containing 350 acres, more or less. Also all the timber rights purchased from Theodore Gillespie by W. H. Hill, now remaining uncut on the lands of said aforementioned Theodore Gillespie, in New Hanover County.

All of the above land and timber and timber rights being the same purchased by the Scott's Hill Land & Lumber Company from W. H. Hill by deed bearing date January 27, 1912, and recorded in Book 80, page 522, Records of Pender County, and in Book 68, page 244, Records of New Hanover County.

PERSONAL PROPERTY.

Seven head of mules; one yoke of oxen; four log carts; one ox cart; chain grabs and gear; one 65 H.-P. steam engine; two saw mills; one edger; one trimmer; one butt saw; one planer; one rip saw; one 80 H.-P. boiler; one 30 H.-P. boiler; one set dry-kiln trucks; one lumber truck; pulleys, cant hooks and chains. Mules as follows: One mule known as Millie, blind in both eyes; one mule known as Julia; one mule known as Lula; one mule known as Pete; two mules known as the Sidbury mules; and one mule known as Mike; same being the mules and other property used by W. H. Hill & Son in operating their mill at Scott's Hill, North Carolina, before they sold out to Marshall & Dawson, who, in turn, transferred their rights to the Scott's Hill Land & Lumber Company. And all other property, except money, belonging to the said Scott's Hill Land & Lumber Company.

The real and personal property will be put up and sold separately and then offered together in bulk as a whole.

The highest bidder will be required to deposit 15 per cent. of his bid on the day of sale, pending confirmation of the same by the court.

This the 7th day of June, 1913.

E. K. BRYAN and
W. P. STACY,
Commissioners.

COTTON MARKET WAS QUIET

Prices Were Higher While Close Was Steady at a Net Advance—The Opening Was Steady at Decline

New York, July 8.—The cotton market continued quiet today, but prices were higher and closed steady, at a net advance of 5 to 9 points. The opening was steady, at a decline of 2 points to an advance of 1 point, and after some little irregularity the market improved on a scattering demand, which seemed to come partly from foreign sources and partly from local shorts, or bullish houses.

Rather steadier Liverpool cables, larger English spot sales, and reports that the continent was buying new crop monthhs in Liverpool contributed to the advance, while demand became a little more active around midday, on reports of high temperatures in the Southwest, or apprehensions that another two or three days of dry weather would bring in drouth complaints. These features seemed to restrict offerings rather than to inspire any general buying movement, but the market was very steady in the late trading and closed within a point or two of the best. Near months were relatively firm, being influenced, apparently, by further shipments from the local stock and continued rumors that international houses were shipping cotton out in order to strengthen a long position in August and October contracts.

The weekly report of the Weather Bureau was considered about a stand off, for although it indicated generally favorable conditions during the past week, it also mentioned the need of rain in several sections, while the day's detailed reports showed temperatures of 100 degrees or over at many stations in both Texas and Oklahoma. The gossip concerning near months situation included rumors that one of the large spot interests supposed to be short of August contracts in this market, might bring cotton here for delivery from New England mill points before the end of the Summer.

Spot cotton, quiet. Middling uplands, 12.25; middling gulf, 12.50; sales, 100 bales.

Futures closed steady.

HIGH PRESSURE IN GRIN PIT

New Wheat Proved Too Much for the Market—Corn Finished Unchanged—Export Business Was Liberal.

Chicago, July 8.—Pressure of new wheat was too much for the market today, notwithstanding assertions of a liberal export business at the Seaboard. Closing prices, although steady, were ½@⅝c. to ⅝c. under last night.

Corn finished unchanged to ¼ down; oats off ¼ to ⅝, and provisions varying from the same as 24 hours before to an advance of 10 cents.

Cash grain:

Wheat—No. 1, red, new, 90; No. 2, red, new, 88¾@89¾; No. 2, hard, 90¼@91¼; No. 2, Spring, 91½@92½.

Corn—No. 2, 61½@62½; No. 2, white, 62¾@63¾; No. 2, yellow, 62@62½.

Oats—No. 2, 38½@38¾; No. 2, white, 41½@42.

Wheat—July, 88; September, 88¾; December, 92¼.

Corn—July, 60¾@60¼; September, 61¼; December, 58¾.

Oats—July, 40¼; September, 41¾@41½; December, 43@43⅜.

Pork—July, 21.20; September, 21.05.

Lard—July, 11.00; September, 11.72½; October, 11.77½.

Ribs—July, 11.90; September, 11.90; October, 11.67½.

CHAIRMAN TRAVIS ILL.

Unable to Attend Railroad Hearing at Greensboro—Fire Loss.

(Special Star Correspondence.)

Raleigh, N. C., July 8.—Chairman E. L. Travis, of the Corporation Commission, had a chill last evening and was unable to go to Greensboro today to attend the hearing in the petitions for stations and agents at McLeansburg and Glenn Raven, on the Southern. Commissioner Pell went to hold the hearing. Chairman Travis hopes to be in Charlotte tomorrow for the Inter-State Commerce Commission hearing in the case of Foreman Shoe Co., vs. Railroad Companies, involving Inter-State rates on shoes.

Col. A. D. Watts, recently appointed to the internal revenue collectorship for the Western North Carolina District, spent the day here and will proceed to Statesville in time to take charge of the revenue office Saturday. Col. Watts is looking unusually well.

State Insurance Commissioner Young issues a statement that the fire losses for June of the current year in the United States aggregates $24,942,000, compared with $16,103,000 for the year ending June, 1912. The losses for the first six months of 1913 amounted to $118,245,000 and for the first six months of 1912 $134,372,000.

$10,000.00 worth of ladies' coat suits, wash dresses, skirts, etc., will be sacrificed at 40 per cent less than their sale's value, which means you can buy a $10.00 dress for $6.00. Gaylord-Platt Co. One-Article Sale. (Advertisement.)

Mid-week dance at Lumina tonight. (advertisement.)

STOCK MARKET FAIRLY STEADY

The Drift Was Decidedly Downward, But Movement Was so Slight as to be Insignificant—European Markets.

New York, July 8.—Although the stock market was subjected to further depressing influences today, it maintained a fair degree of steadiness. The drift was downward, but the movement was so slight as to be insignificant. Union Pacific was the only speculative stock which, at its low price of the day showed a loss of as much as a point.

European markets again were disturbed by the troubled Balkan situation, and stocks here received the first downward impulse from the lower quotations sent from London. Fears were expressed of renewed European liquidation, but only a few thousand shares were disposed of here today for foreign account.

Bear traders received further encouragement from the engagement of $2,000,000 more of gold for export to Paris, and from the news that negotiations between the trainmen and managers of Eastern roads to settle the wage question had been interrupted.

Some success attended efforts to depress the market, but bear pressure induced no general selling, and when attempts to cover were made prices moved upward as readily as they had previously eased off. There was no heavy trading, and the day's movements consisted of slow fluctuations back adn forth within a narrow range, with a heavy undertone. Great Northern Ore, Westinghouse Electric and American Telephone, which were the weak features of yesterday's trading, recovered part of their losses today.

The lack of demand for stocks was the more noticeable by reason of the fact that a considerable volume of investment buying is looked for at this season, following heavy July interest, and dividend payments. The July reinvestment demand thus far has been unusually light, compared with other years.

In the bond market there also was apparent lack of demand. New York city bonds were in increased supply and a number of other bonds were seeking a market with sellers willing to accept concessions. Government bonds exhibited further heaviness. The 2s, which recently broke below par for the first time, sold today at the recent bid price of 99, a decline of a point from the last previous sale. The 4s sold at 113, the price recently bid, and then were offered at 112¾, a decline of ¾ on call on the day.

The bond market in general was irregular, with a lower trend. Total sales, par value, $1,568,000. Total sales, 129,700 shares including: American Tobacco, 100; A. C. L., 100; Lehigh Valley, 3,700; N. and W., 900; Tennessee Copper, 500; United States Steel, 22,400; V.-C. C., 100.

THE NAVAL STORES MARKET.

New York, July 8.—Turpentine—Steady.

Rosin—Firm.

Savannah, July 8.—Turpentine, firm, at 35½. Sales, 150; receipts, 2,276; shipments, 228; stocks, 30,923.

Rosin—Firm. Sales, 689; receipts, 3,879; shipments, 271; stocks, 133,461. Quote: A, B, 4.25; C, D, 4.35; E, 4.50; F, G, H, I, 4.45 to 4.60; K, 4.60; M, 4.80 to 5.00; N, 5.40 to 5.50; W G, 6.25 to 6.35; W W, 6.40.

THE DRY GOODS MARKET.

New York, July 8.—Cotton goods markets are quiet and steady. Yarns are firmer. Foreign men's wear factors are upset in their calculations for Spring trade, owing to the setting of a tariff date at January 1st, instead of October 1. Buyers are more numerous in the markets.

DESTROYED TWO STILLS

Durham Officers Cut Up Perfectly Good Copper Kettles

Durham, N. C., July 8.—The county officers today cut up two blockade stills captured recently on a raid in Orange county. One of them was of 110-gallon capacity and the other was little smaller. The stills were well built and showed signs of a good deal of service.

MELEAN

The acknowledged Master of mental mediumship. Melean will tell you what you wish to know, be it good or bad.

No matter how bad your condition or of how long standing, Melean can bring the success and happiness that is rightfully yours.

Melean's long and successful practice in adjusting business affairs makes it impossible to fail in being of benefit in affairs of love, marriage, divorce, changes, wills, deeds, mortgages, patents, sickness, and, in fact, everything.

Evil habits and influences that bear you down, causing bad luck and making you despondent and unable to gain your desires, Melean, through the fully developed psychic forces can remove.

Melean develops Personal Magnetism, and all latent forces, giving you the power to control any one or condition you desire.

Why are you so unsuccessful in business?

Why are you so melancholy and discouraged?

Why are you drawn through life so unhappy?

Why is some one sharing the love that is rightfully yours?

These and kindred questions can be answered, advised upon, and the cause explained by consulting this noted clairvoyant, who can impart to you a force so strong, so subtle that life becomes Bright, Happy and Prosperous.

Those who are in sorrow, doubt and distress should call at once. Melean has helped others, why not you? She never fails.

Melean develops weak Mediums and Clairvoyants, and instructs you in the occult, imparting to you the wonderful secret—"Success."

This noted clairvoyant, whose advertisement appears in every issue of the Morning Star, is besieged each day with the very best people in Wilmington, seeking advice and information on all matters of interest in business transactions, law suits, contested wills, life insurance, damage suits, divorces, deeds, mortgages, hidden treasures, claims, collections, speculations, adventures, stocks and financial difficulties. Predicts the success or failure of the new invention, patents pending, pension claims, etc., tells you whether you will receive fair dealings with partners.

If you care to know what business you shall follow to be successful, where you shall go, and who to avoid, if you intend to make any changes, or to start a business, buy or sell property, or, in fact, take any important steps, you should call upon this gifted clairvoyant at once.

Call today, for tomorrow may be too late.

Satisfaction is positively guaranteed. No fee accepted in advance. If you are not satisfied, no fee is accepted. Is not that honest? Could anything be more fair? A pleased patron brings his friends. Melean's motto is: "I must satisfy you first."

Melean's practice and professional reputation is built upon honor, reasonable charges, faithful service and speedy success.

Remember the name and number—Elda Melean, 106 N. Fourth St., second door North of Princess St.

DAVID'S

The first "4th of July" celebration

IN those days they celebrated the country's independence of foreign rule; they had to fight for it, but they got it. In these days there's a different sort of independence to be gained; and you ought to help win it.

Independence from fraud in merchandise is one of the things we 're trying for; the elimination of the cheap stuff that masquerades as quality. It appears in clothing in the form of cotton mixed fabrics, in "sloppy" tailoring, in flashy, undignified styles.

Hart Schaffner & Marx

clothes are a declaration of independence; they're all-wool, the best tailoring, the best style; they give the wearer independence of thought; and they save him from paying too much for good clothes.

That's the way we sell them; at $18, $20, $25, and more; the best values you ever saw at $25.

The A. David Company

This store is the home of Hart Schaffner & Marx clothes Manhattan Shirts.

WHEN the sun broils and you want to fool the temperature, step right into a Stein-Bloch Summertime zephyr-weight suit. Buy one of these wonderfully tailored, lightest weight, two-piece garments in either True Blue Serge, Zephyr Home Spun or other tropical fabrics. You will hardly know the suit's on your back and you will enjoy the coolness it imparts. You will enjoy the low price more.

Palm Beach Suits, $7.50.

Bathing Suits, Hats and Furnishing Goods.

THE WALL STREET STORY CONTINUES

(Concluded from Page One.)

subpoenae, will take the stand tomorrow morning before the Senate committee.

Lamar took the stand today at his own request to make a "statement."

He showed nervousness but as he began to talk he grew calmer, taking up the recital of the motives back of his relations with Edward Lauterbach.

"I realize perfectly that my life and character are on trial before this committee," he said. Lamar called attention to the fact that his testimony and that of Edward Lauterbach had shown they were not engaged in any effort to get money from the Morgan or other interests.

"It was specifically said throughout that no question of money was concerned," he said. "Now you want to know what our motive was. I'll tell you what my motive was. It was to produce one or two results, either that these men should recognize the injustice of their attitude toward Mr. Lauterbach and myself or to force them to come out into the open with the charges of blackmail which they had circulated surreptitiously in New York for years against Mr. Lauterbach and myself."

Lamar declared they had succeeded in forcing the financial men "out into the open."

"What men?" asked Senator Nelson.

"Ledyard and his associates," answered Lamar.

"They had ruined many men and I was determined they should not ruin me."

Lamar said he knew Lewis Cass Ledyard had opened up a telephone extension on him and was trying to "trip him" when he began telephoning in the name of Representative Palmer. He said he had not intended to carry on the impersonation of Palmer, but he believed Ledyard and his associates were trying to catch him. So he deliberately set about "fixing up a deal on them."

Senator Reed tried for a half hour to bring Lamar to an explicit statement of the purposes of his operations.

Lamar insisted he was after Ledyard, Cravath, Evarts, Lovett and the "Morgan steel trust, Union Pacific and other interests; that he wanted to force them to an open attitude."

"It was a favorite method of mine producing an explosion when I wanted one," he added.

ELKS IN SESSION

Edward Leach Elected Grand Exalted Ruler of B. P. O. E.

Syracuse, N. Y., July 8.—Grand Treasurer Edward Leach, of New York, today was elected grand exalted ruler of the Benevolent Protective Order of Elks to succeed Thomas B. Mills, of Superior, Wis. Mr. Leach was opposed by J. Cookman Boyd, of Baltimore. The vote was Leach, 1,119; Boyd, 392. Grand Secretary Fred C. Robinson, of Grand Duke, Iowa, was re-elected in a three-cornered fight.

The election was the feature of the day's sessions of the Grand Lodge. At the conclusion adjournment was taken until tomorrow when the report of the committee appointed to consider the advisability of erecting a new National home at Bedford, Va., was made a special order of business.

SUNDAY SCHOOL WORKERS.

Now Attending Summer Normal Near Roanoke, Va.

Roanoke, Va., July 8.—One hundred and seventy-five Sunday School workers from Virginia and neighboring States are in attendance here upon the Sunday School Summer Normal, the first undertaking of the kind ever held in this section of the country. Prof. J. M. McBryde, of the University of the South, at Sewanee, Tenn., delivered the opening lecture here today, having as his subject "Teaching the Bible." Other prominent Sunday school workers in attendance are Rev. G. C. F. Bratenahl, of Washington, D. C.; Rev. S. U. Mittmann, field secretary of the board of Religious Education of the Episcopal church; Rev. H. W. Diller, of Pottsville, Pa., and Miss Helen I. Jennings, of Pottsville, Pa. The normal will be in session throughout Friday.

DANIELS AT PHILADELPHIA.

Inspects Naval Home and Hospital, and Navy Yard.

Philadelphia, July 8.—Secretary of the Navy Josephus Daniels today inspected the Philadelphia navy yard and the naval home and hospital here. The Secretary was not expected at the Naval Home, and Superintendent Hetherington was absent. His daughter received the Secretary, and afterward summoned her father.

"Mr. Secretary, the Home and the grounds surrounding it are beautiful, and nothing is desired but one thing," said the girl, meanwhile.

Mr. Daniels asked what that was and the pretty Miss answered: "A cow."

The secretary smiled, and assured her that the Home would be provided with a cow by the government.

MULTI-MILLIONAIRE HELD.

Must Remain in Asheville Sanitarium for Insane.

Asheville, N. C., July 8.—Henry Clay Ward, the multi-millionaire of Pontiac Mich., who has figured as the principal in habeas corpus proceedings seeking release from a local sanitarium for the insane, wheer he was placed last week on representations made by his wife, must remain at the institution indefinitely, according to an order made by Judge Frank Carter, in the Superior Court today. This means that Mr Ward will not go back to Michigan on July 12th, as was planned by his guardians, to be present at lunacy proceedings set before the probate judge of the county in which he—Mr. Ward—resides. The millionaire's wife was present at the hearing today.

JACK LONDON ILL.

Author to Undergo Surgical Treatment for Appendicitis.

Oakland, Cal., July 8.—Jack London, the writer, is in a hospital here preparing to undergo an operation tomorrow for appendicitis. His physician says London's general condition is such that he should be out again in about ten days.

The attack developed while London was at his country home at Glen Ellen, a week ago, and became acute Saturday night.

Granulated Eyelids Cured.

The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. Relieves pain and heals at the same time. 25c, 50c, $1.00. (advertisement.)

PAY FOR IMPRISONMENT.

Witness Who Was Held in Jail Given $25 for His Time.

Greensboro, N. C., July 8. — The County Commissioners yesterday voted to pay William Blount, a negro the sum of $25 to reimburse him for the time he was committed to jail and held as a witness in the case against John E. Fogleman for the murder of W. H. Tucker. Fogleman was convicted of murder in the second degree, and appealed. The sentence was 30 years in the penitentiary, and the bonds in this and the retailing cases aggregated $7,500. Fogelman has been unable to give this bond. The defendant was known in Greensboro as the "blind tiger king."

J. B. Minor, public administrator, has qualified upon the estate of Hamilton Clark, the negro professor in the A. and M. College for the colored race here, and will investigate the claim that Clark made that he was soon to receive a $10,000 legacy. Unless this pans out, which is not expected, the assets of the deceased will be about $50, with debts several times this amount. Clark committed suicide in Mt. Airy last week.

The County Commissioners today decided on a farm demonstration bureau for Guilford county. The county appropriates $500; the Chamber of Commerce $500, and the Federal government $500. The grain exchanges of Chicago had promised $1,000 to supplement these funds, but it does not seem to be forthcoming. Efforts have been made to get the exchange to make good, but no satisfactory promise can be obtained.

DUNN PROUD OF FOURTH.

Celebration so Fine She Would Hold State Fair.

(Special Star Correspondence.)

Dunn, N. C., July 8.—Dunn had such a successful celebration of July Fourth that she is considering very seriously asking to have the State fair held here next year. We were a little afraid at first that the crowd was overestimated, but after due deliberation, a conservative estimate would put the crowd at over 10,000. A prize was offered for the biggest load brought to town on one wagon, this prize was won by Mr. Handy McLamb, who brought 106 people, which goes to show that we would not have any trouble in getting a crowd. Another feature of the celebration was a short speech delivered by Hon. H. L. Godwin in welcoming the people to our progressive little city.

At the regular meeting of the Chamber of Commerce Monday night the question of a union station to be built by the Durham & Southern and the A. C. L. was brought up, and as usual in towns of this size, the people are divided so on the matter that there seems no hope of unity of action, as to where it should be located.

There is a strong movement on foot by some of the leading business men of the town to organize another fertilizer mixing plant, as over 11,000 tons of guano were sold here this season.

The Dunn Oil Mills Co., is doing a very successful business along this line. And their new superintendent, Mr. Austin, will enlarge this feature of the business.

THE PRESIDENT RESTING

Has Greatly Improved in Health During Past Three Days

Cornish, N. H., July 8.—President Wilson has so improved in health in the last three days and likes his Summer home here so well that he practically decided tonight to prolong his stay until Sunday. Should affairs in Washington, however, become pressing he will start back immediately to the capital. Secretary Tumulty is keeping Mr. Wilson in touch with things.

The satisfactory progress of the tariff bill, especially the adoption of the caucus resolution by the Senate Democrats insuring a safe majority for the measure, removed the last bit of anxiety the President had about spending this week away from Washington so he has yielded to the advice of his physicians to take a good rest.

The President found an ideal golf course at Hanover, N. H., today and probably will golf there frequently hereafter. Professor Cox, of Dartmouth College, assured him he could play inconspicuously there. The President spent the afternoon at home reading some official papers. Many people left their cards, but none saw him.

WHISKEY $4 A QUART.

Twenty-Year-Old Corn of Old Nick Williams Company.

Greensboro, N. C., July 8.—If accounts given be true, N. Glenn Williams, of the Old Nick Williams Distilling Co., has a fortune stored away in his warehouses in Yadkin county, where for many months the government has kept guard on about 28,000 gallons of whiskey until litigation over it could be settled. It is said that as much as $4 a quart is being received by the company for its 20-year-old corn whiskey. The public is familiar with the long-drawn-out case of N. Glenn Williams in the Federal courts and in the Department of Internal Revenue. The case finally reached a point where Judge Boyd referred the whole matter in dispute to Special Master Augustus Price, of Salisbury, and his findings being in favor of Williams, Judge Boyd on Monday signed the final order in the case. Williams is now free to pay the $30,000 in tax that is due on the whiskey, and sell it, outside of North Carolina, of course. At $4 a quart, he has about $400,000 worth of whiskey on hand, the newest of which is but little less than 10 years old.

COTTONSEED CRUSHERS

Association Now Holding Session at Lake Toxaway

Asheville, N. C., July 7.—With President C. R. Sprott, of Manning, S. C., presiding, the South Carolina Cottonseed Crushers' Association convened in annual session at Lake Toxaway today. About 60 members are in attendance. The oil men estimate that the cotton crop for South Carolina this season will be about 1,363,000 bales, and the association today decided to use every effort to secure statistics of cottonseed marketed and cotton ginned each week during the session. Addresses were made by Mr. Robertson, chemist, of Clemson College; Mr. Summers, of the South Carolina Department of Agriculture, and T. C. Law, industrial chemist of Atlanta, Ga. The oil men will be in session over tomorrow.

FIRE-WATER AND INSURANCE

Attorney Generals Discuss Both at a Meeting in Charleston

Charleston, S. C., July 8.—Legal questions connected with liquor prohibition and fire insurance laws were discussed here today by the National Association of State Attorney Generals, meeting in its annual convention. Thirty States are represented in the convention which will continue through tomorrow.

COUNTY BOARD OF HEALTH

(Continued from Page Five.)

air space and has seven prisoners at present, equals 371 cubic feet for each prisoner. The colored apartment has 14,000 cubic feet air space and has at present 64 prisoners, equals 219 cubic feet for each person.

"The prisoners are required to take weekly baths and not sleep in anything worn during the day; all blankets and bed clothing washed every two weeks; the prison thoroughly cleaned weekly; prison is screened and heated by stove; water supplied by deep pump; a recent examination of the water shows it to be of good quality and no pollution. A sample of the spring water at the mine nearby has also been alayzed with same results. The prisoners are fed with good wholesome food in sufficient quantity and well prepared. They receive vegetables every day, fresh meat once a week, flour bread twice a week, coffee for breakfast.

"I found that the steward had been in the habit of keeping a stock of drugs on hand and administering them to the prisoners at any time they complained of not feeling well and the prisoners frequently lay off from work under pretense of not being able. This habit has been stopped. Inasmuch as this camp is used as a hospital the attending physician visits it regularly and no prisoner receives any medicine except as prescribed by the physician and when a prisoner claims of being unable to work the physician is notified. He is examined, if found sick, prescribed for and returns to his work as soon as able. These same instructions and regulations are carried out at the respective cages where the prisoners are confined to do road work.

"Convict Cage at Castle Haynes:—This is an old wooden cage, but is kept in a good sanitary condition. The prisoners are cared for in the way of clothing and feeding in the same way as they are in the home camp. There are nineteen (19) at this cage. Only seventeen (17) sleep in the cage, two being trusties sleep outside.

"Convict Cage at Federal Point Road:—This is a new steel cage and kept in an excellent sanitary condition. Only 12 prisoners occupy this cage. The prisoners are clothed and fed in the same manner as the prisoners in the home camp. This cage is in need of a canvas to replace the one worn out. The sanitary can closet is used at the home camp and at both cages. The contents are disinfected and removed daily. A disinfectant is used in these cans at all times.

"Respectfully submitted,

"JOHN THAMES,

"Assistant Supt. of Health."

SEVERAL CHARTERS GRANTED.

Bridge & Iron Co., to Operate at Lexington—Farmers' Warehouse.

(Special Star Correspondence.)

Raleigh, N. C., July 8.—The Inter-State Stores Co., of Greensboro, to operate a chain of department stores, has been chartered, with $200,000 capital stock, issued in $10 shares of preferred and common. The incorporators are L. J. Shaw, Carter Dalton and Dred Peacock.

Another important charter is to the Carolina Bridge & Iron Co., Lexington, capital $125,000 authorized of which $10,000 is 8 per cent. preferred stock and $115,000 common stock. The incorporators are J. R. Hoffman, Burlington; G. F. Hankins and J. C. Bower, Lexington.

There is also a charter for the Catawba County Farmers' Union Warehouse Co., of Newton, capital $25,000 authorized and $1,050 subscribed by C. E. Smyre, H. L. Arndt, J. Y. Killian and others.

GOV. BLEASE'S PARDON RECORD

Nearly 700 Prisoners Released from Prison Within Two Years

Columbia, S. C., July 8.—Governor Blease today exercised executive clemency in 16 cases which makes his pardon record approximate a total of nearly 700 prisoners released from the penitentiary since he became chief executive of the State over two years ago.

The crimes for which those released today were convicted include: murder, two; manslaughter, three; arson, one; assault and battery, four; bigamy, one; buglary, one; forgery, one; grand larceny, one; housebreaking, one, and violation of the dispensary law, one.

The Governor said this morning that he would discontinue issuing pardons until Thanksgiving Day, which day last year he signalized by releasing 79 prisoners at one time.

The Languedoc Canal was the first large canal constructed in Europe, and was opened on May 19th, 1601. The digging of this canal was considered a gigantic undertaking, although it was a small affair compared with our present Panama Canal.

This canal was 148 miles long and 6 1-2 feet deep. It cost $3,500,000 and required 15 years to build.

Did you ever think that digging a canal, shovelful by shovelful, is much like building a bank account, dollar by dollar, and while it seems slow work, yet in a few years wonders have been accomplished? A few cents a day or a few dollars a month regularly added to a bank account will provide in a very few years a fund of which one can be proud.
